VOL. 67. SATURDAY, OCTOBER 8, 1898. NO. 1737.

CLEARING HOUSE RETURNS.

For the month of September the exhibit is less favorable than for preceding months of the current year, thirty seven cities included in our statement recording losses from the like month of 1897, and in the aggregate for the whole country the decrease reaches 1·2 per cent. For the nine months the gain over the same period of a year ago is 21·7 per cent.

The week's total for all cities shows a loss of 4·2 per cent from 1897. The increase over 1896 is 25·5 per cent and the excess over 1895 is 4·1 per cent. Outside of New York the decrease compared with 1897 is 3·4 per cent, the gain over 1896 is 14·6 per cent, and the decrease from 1895 reaches 5·6 p. c

THE FINANCIAL SITUATION.

The centre of interest this week has been the sugar-refining business. Every one knows that for a long time rumors were afloat of a sugar war in prospect between the American Sugar Refining Company on the one hand and the independent refineries, chief among which are the Arbuckle Brothers, on the other. Notwithstanding these reports the price of American Refining Company's stock kept moving up until Friday, August 26, when the common touched 146¾. That figure was the turning-point. Since then the price has been steadily declining. Last week a new development was the drop in refined sugar in the aggregate of about ¼ of a cent per pound. This was at first construed as the actual beginning of the contest, and American Sugar Company's stock consequently touched on Wednesday, September 28, 116¼. From that point a natural reaction set in, it being claimed by some that the decline in raw sugar and other business conditions warranted the lower price for the refined product. But on Wednesday of this week the real situation of the parties was made evident by a further cut of ⅛ of a cent per pound for granulated sugar by the American Refining Company, and a quick response to that act by the independent companies, they having the same day again cut the price an eighth, bringing granulated sugar in the barrel down to 5 cents per pound, which is said to be below the cost of manufacture—showing obviously that the war between these large interests was at length fully under way.

We mention these details here, although the facts are given in other departments of our paper, because the operations and movements narrated have been for the time being a dominant unsettling influence in the Wall Street security markets. Such a feature in the situation is the more noteworthy since all other conditions are growing day by day more favorable. General trade is no doubt widening. The revival early in September was confined to a few large interests; it now includes almost every industry and is expanding still. Another encouraging feature is that the foreign demand for our wheat continues and the price is further moving upward, not under speculative but under genuine influences. Among these are the large exports of wheat and the reports that the offerings by Russia are growing less. A special demand is likewise apparent for our rye; and with wheat and rye in request for Europe, other food products are advancing. Then, too, railroad gross earnings are affording stronger evidence of the increasing volume of business under way. This has been a conspicuous feature the current week, the Western roads showing large gains in face of a smaller grain movement than a year ago.

An event which has attracted considerable attention has been the closing of the doors of the Tradesmen's National Bank. Being a member of our Clearing House and an old bank it is reasonable that the incident should excite a good deal of attention. Besides those conditions, there are others which give prominence to such an occurrence. Banks, in their character of public institutions, are organized for the purpose of keeping money safely. A bankruptcy among them is consequently a failure in a chief object of their existence and always causes a feeling of surprise much greater than the announcement of insolvency by any mercantile establishment. Then, too, the fact that it was a national organization, belonging to a class which depositors are apt to think have a quasi guaranty of solvency by the Government through the examinations the law provides, has tended further to give to the statement issued by the Clearing House Committee, that "the capital of the bank is *largely* impaired," the character of an wholly unexpected disclosure. Of course it afforded no satisfaction to depositors but rather increased their astonishment to be told that in banking circles it has been known for a considerable time that there was a struggle for existence going on there; a natural thought that suggestion induced was, if banking circles were informed why should not the public examiner have been put on the inquiry and have discovered the defects? A full answer to this last question is that these Government officers are in the nature of the case a protection in much the same way and degree as a watch dog is with a substantial bark but few teeth. The imposing character of a United States official clothed with certain drastic powers serves by his very existence as a deterrent of no little influence against wrong-doing; and yet the most experienced examiner in the United States, with the best of intentions, cannot sufficiently get hold of the affairs of an institution in the time he has to give to any single investigation so as to be able to expose much more than superficial irregularities or deficiencies.

We do not mean to prejudge the Tradesmen's Bank case. As yet the public is without sufficient details with reference to the situation to draw any definite conclusions. We are inclined to think that the affair will prove to be merely an unsuccessful effort to open a wider field, without having the necessary money with which to do it, for an organization that had begun to fall behind. Before the new management went into possession it will be remembered that the Tradesmen's Bank was reporting not only a capital of $750,000, but a surplus of $150,000. Mr. Macnaughtan, when he took control in 1895, immediately marked off the whole of this surplus, stating that it was in good part fictitious, there being many bad debts, and others doubtful, which it represented. This was a bold step, not necessary in its entirety certainly, as subsequent events proved; for very many of the claims were soon collected and the surplus was in large part thereby gradually restored. The bank, however, never fully recovered from the shock of this announcement. Confidence is a more important asset than capital with such an institution, though not appearing on the books. The individual deposits reported by the Tradesmen's Bank October 2, 1894 (the last return we have from the old management) were $1,563,279; the first return in our possession as we write of the new management is dated September 28 1895 and gives the individual deposits at $1,329,526. Here is an immediate net loss of $233,753, or about 15 per cent, in that item, notwithstanding the new management brought to their support quite a number of new clients when they entered into possession. We have no room here to refer to the subsequent increase in the deposits and the false hopes of prosperity which it encouraged. It is sufficient to add that few more risky undertakings in a business way can be named than an attempt to-day, under present laws, to establish a new bank in New York City; we should almost say it would be impossible to make a success of the enterprise unless the organizers brought with them, at the start, an un-

usually large clientage. If that be true, would it not be well-nigh hopeless to put prosperity into an old concern situated as the Tradesmen's Bank was in September 1895?

The renomination this week by acclamation of Congressman Charles N. Fowler of New Jersey for another term in the House of Representatives is an event that has a wider interest than the limits of a Congressional District. Mr. Fowler is a staunch and vigorous champion of sound finance. As a member of the Banking and Currency Committee of the House, he has shown himself to be one of the most useful as well as one of the most aggressive of the members of that important body. The divergence of views existing in that committee is well known. Because of this conflict of opinion it is almost impossible to secure concerted action in favor of any scheme of reform. But Mr. Fowler has never ceased urging the necessity for prompt action to place our banking and currency system on a basis where the danger to which it is now subject could be avoided. Moreover, he has not been so wedded to his own plan that he could not see merit in the propositions of others. At the same time he has been so earnest in his pleas that he has won the esteem of even his opponents. Nor has he confined his efforts to the precincts of Congress. On every public occasion where his services have been enlisted, he has taken pains to inculcate correct views of finance and banking. His most recent public utterance was at the Monetary Convention held at Omaha last month on the grounds of the Trans-Mississippi Exposition. His speech on that occasion was at once a capital diagnosis of the situation and an instructive educational effort. The reports in the press regarding his renomination say that every delegate at the Congressional Convention seconded his nomination. This is a well-deserved tribute to an intelligent and faithful representative, and it is pleasing to know that his constituents take the same view of his services as the public at large.

We have referred several times recently to the prosperity and large gains in earnings enjoyed by the Oregon Railroad & Navigation Company during the late fiscal year—a prosperity which has permitted not only the payment of dividends on the preferred shares but also the beginning of dividends on the common shares. The appearance of the annual report (it was printed in our railroad department last week) directs attention to another feature in the company's affairs. We refer to the great improvement that has been wrought in the physical condition of the property. The report adverts to this feature, and indicates some of the ways in which the betterment work has been carried on. Grades have been reduced, curves removed or lessened, bridges filled in, steel structures substituted for wooden ones, heavier rails put in the track, and various other changes of the same nature made. On the main lines the rails laid weigh 75 pounds to the yard. While it is clear that such work tends to increase the speed of trains and also their tonnage, and at the same time promotes safety in operation while reducing cost, no one can fully appreciate the extent of the change effected except those who had occasion to travel over the road before the improvements were made. Because of the road's numerous grades and the instability of the track, it used to be said that a trip over the line would make one sea-sick. All this has now being corrected. The result is seen in the circumstance that in a single year the train-load was increased from 188 tons to 245 tons. Another striking characteristic is that the cost of these improvements, as well as the cost of additional equipment, has been charged to operating expenses and paid for out of earnings. The outlays in this way aggregated altogether $565,027. Moreover, the comparative figures we gave last week showed that the company spent $1,032,677 for Maintenance of Way, etc., in 1897-8, against only $561,002 in 1896-7.

Money on call has been easier this week, influenced by the increased surplus reserves shown by last week's bank statement, and also by further engagements of gold for import, and bankers' balances have loaned on the Stock Exchange at 4 and at 1½ per cent, averaging 2¾ per cent. The extremes were recorded on Monday, the higher rate in the morning and the lower rate just before the close of the day. The range on Tuesday was from 3½ to 2 per cent; on Wednesday and Thursday it was from 3 to 2 per cent, and on Friday it was from 2½ to 2 per cent. Banks and trust companies have marked their loans down to 3 per cent as the minimum. Time contracts are quoted at 2½@3 per cent for sixty to ninety days, and 3@3½ per cent for four to six months, on good Stock Exchange collateral. Commercial paper is increasing in volume, and there is a fair demand, some of the city banks and a few of the trust companies being in the market as buyers. Rates are 3½ per cent for sixty to ninety-day endorsed bills receivable, 3¾@4½ per cent for prime (with sales of very choice at 3½ per cent) and 5@6 per cent for good four to six months single names. The outward movement of currency, not only through the Treasury, but directly by the banks, seems to be increasing again, and though it is chiefly to the South some shipments have this week been made to extreme Northwestern points. The receipts of gold from Europe, however, have more than counterbalanced this drain. Gold payments at the New York Custom-House continue large. The proportion of gold so paid last month was 78 per cent, the highest yet recorded, exceeding that of May by 4·5 per cent.

Though there is no important feature in the European political situation, more or less anxiety is felt regarding affairs in China. The reports of the death of the Emperor have been denied. The foreign embassies at Pekin have been threatened by the populace and the ambassadors have ordered additional guards from their fleets. The Boston and the Petrel have been ordered to proceed to the nearest point possible to Pekin for the protection of American interests. The Powers have sent a collective note to the Sultan demanding the withdrawal of Turkish troops from the island of Crete within thirty days and requiring that the withdrawal must begin within a fortnight. The Bank of England minimum rate of discount remains unchanged at 3 per cent. The cable reports discounts of sixty to ninety day bank bills in London 2⅝ per cent. The open market rate at Paris is 1½@2 per cent and at Berlin and Frankfort it is 3½@4 per cent. According to our special cable from London the Bank of England lost £1,430,022 bullion during the week and held £31,746,942 at the close of the week. Our correspondent further advises us that the loss was due to the shipment of £1,368,000 net to the interior of Great Britain, to the import of £73,000 from

Australia and to the export of £135,000, of which £100,000 was to Egypt, £20,000 to Brazil, £10,000 to Argentine and £5,000 to Calcutta. The Bank of Germany reports the extraordinary loss of 102,600,000 marks since the last statement, due to the quarterly settlement.

The foreign exchange market has been dull and irregular this week, with a firm tone for long sterling, partly in consequence of easier discounts in London, while short sterling has been barely steady. Bankers report increasing offerings of grain and cotton bills for prompt delivery, and also a good supply of futures against these staples, though largest against cotton. There has been evidence within a few days of buying of long sterling for investment, to hold until it ran to short. While such operations do not seem, at the moment, likely to yield a profit, still there may be some advantage to the buyer resulting from the difference between the long and the short bill, provided the long drafts can be carried here at less than 2½ per cent. It is suggested that some of these purchases of long sterling, which appear to be for investment, may be for the purpose of remittance to be made for settlements at the end of the year.

The posted rates for exchange have uniformly ruled during the week at 4 82½ for sixty day and 4 85 for sight, Brown Bros. and the Canadian Bank of Commerce, who last week posted 4 82 for long, advancing their rate on Monday. The rate for actual business in long sterling was also advanced on that day one-quarter of a cent, compared with the close on Friday of last week, to 4 81¾@4 82, while no change was made either in short sterling or cable transfers, these remaining at 4 84@4 84¼ for the former and 4 84½@4 84¾ for the latter. The tone thereafter was firm for long and with an easy tendency for short, and scarcely any business was done in cables. The tone was steady on Friday. The engagements of gold announced this week have amounted to $2,500,000, consigned to Lazard Freres. The arrivals of gold from Europe have been $4,212,550, previously reported $16,500,660, making a total of $20,713,210 on this movement. The following shows daily posted rates for exchange by some of the leading drawers.

THE RAILROADS AND THE PENDING CANADIAN TREATY.

A Joint High Commission is now in session at Quebec, composed of six Commissioners appointed by Great Britain and six appointed by the United States, who are engaged in the formulation of a treaty in respect to questions heretofore in controversy between the United States and Canada. Four of the English Commissioners are Canadians and one is from Newfoundland. The high character and ability of those engaged on both sides of this negotiation has led to a belief that important results will be reached in the way of definitely settling at least some of the fifteen topics under consideration. Certainly the time is most opportune for attempting these adjustments, and the questions are being approached by the negotiators in a very different spirit from that which has prevailed in the contentions of the past.

One of the subjects under discussion has reference to the so-called bonding privilege enjoyed by Canadian railways in respect to traffic crossing the international border. This privilege affects two classes of freight business, the movement of passenger business being practically free except as to the examination of baggage by custom house officials on either side.

The first class of freight business referred to is that between either country and foreign countries, which passes through the other country en route; for example, traffic between Eng and and Canada, through the ports of Boston, Portland and New York, and traffic between England and our Western cities through the port of Mon real. In each case the cars are sealed and bonded during the transit through the other country, to the end that Customs revenues of the United States and of Canada respectively may be properly protected. Each country welcomes the transaction of this commerce across its boundaries and through its seaports, and no question is made as to the continuance of the privilege in this respect.

The other class of business has given rise to long and severe controversy. It is traffic which originates and terminates in the United States or which originates and terminates in Canada, passing through the other country on its journey. Traffic handled through Canada between points in the United States began with the opening of the old Great Western Railway, between Detroit and Suspension Bridge; it has en-

larged and expanded until at the present time it produces earnings of perhaps $20,000,000 per annum. The traffic through the United States between points in Canada is of more recent origin and of comparatively insignificant volume; it is increasing, however, being principally between the eastern provinces of Canada on the one hand and the northwestern provinces on the other, via Chicago.

Business across the Dominion of Canada from one United States point to another United States point is, as already stated, protected by a bonding-in-transit privilege. But this privilege rests simply upon mutual arrangements between the two countries. It is not protected by any treaty sanction, and hence is subject to termination at any time by executive order or by Congressional action. At first involving only comparatively short distances, it now applies to a large amount of long-distance traffic between New England and New York on the east and Illinois, Minnesota and the Pacific slope on the west. Since the opening of the Canadian Pacific Railway that company has been aggressive in reaching into the United States for this business, and unremitting in its efforts to prevent Canadian business from passing through the United States. Its route via Chicago has taken much traffic from the American trunk lines both east and westbound. as it makes connection at Chicago for all points west and southwest of that city. Its route between St. Paul and New England, via the Soo, has secured a large share of the grain and flour business of Minnesota and the Dakotas. Its trans-Continental line takes through Vancouver a considerable amount of traffic between all points on the Pacific Coast and all points south and east of St. Paul.

This state of affairs has created much feeling among the American roads, not so much by reason of the introduction of a new competing line—for they have become well accustomed to that by long and frequent experience—but chiefly because of the methods employed by the Canadian road in seeking this American business and the conditions under which the competition has been conducted. For example, when the Canadian Pacific opened its trans-Continental line it announced itself a competitor for all traffic within reach, and laid claim to a differential rate on the alleged ground of its longer distance and inferior facilities. This was a great surprise to the American trans-Continental lines, no such thing as a differential on either freight or passenger business being known in western railroad circles. But protests were unavailing; the Canadian road backed up its claim by reducing the through rates, or, in railroad parlance, "taking the differential;' for a time peace was purchased through the payment of a subsidy; when this was abandoned the demand was renewed; a rate-war was announced unless the concession should be made; if engaged in, the Canadian line would lose almost nothing, while all the American trans-Continental lines would be subjected to heavy sacrifices. After a time another peace was reached, conditioned that the American roads should always charge certain fixed sums more than the Canadian road charged on both freight and passenger business. This condition continued for several years, the Canadian Pacific continually improving its line and its facilities, and taking more and more business away from the American roads.

This history relates to only one case of many in which friction has arisen between the American roads and the Canadian Pacific. It is obvious that whatever claim the latter may originally have had to a differential, that claim is measurably weakened now that its facilities are equal to that of the American roads. The Inter-State Commerce Commission in their recent opinion respecting the controversy concerning passenger rates laid great stress on the ability of the road to compete on equal terms. Aside from this, however, United States roads have what may be considered a real grievance in the fact that experience has demonstrated that the competition through Canada can be conducted without being subject to the requirements of the short-haul clause of the Inter-State Commerce law so far as the Canadian portion of the road is concerned. There are also some other legal requirements to which the American roads are subject, but which do not bind the Canadian roads except so far as they voluntarily submit themselves thereto.

The friends of the American roads from time to time have suggested that this situation can be cured by Congress through a withdrawal of the bonding privilege. No determined attempt has yet been made to obtain such action, but the subject has been broached in Congress and a readiness to see justice done has been quite apparent in many influential quarters.

It is now proposed that the new treaty shall establish and provide a continuing right for the roads of either country to do business between points in the other country, under provisions making such traffic throughout its entire course subject to the laws of the country in which it originates; placing such traffic under the control of the Inter-State Commerce Commission as to United States traffic and of the Railroad Committee of the Privy Council as to Canadian traffic; and making it the duty of the Treasury Department of either country to suspend the bonding privilege and collect duties on any particular traffic in case those bodies respectively shall certify that a company fails to conform to the requirements of the treaty in that behalf.

This provision is intended to put the roads of both countries upon an exactly identical basis, and is believed to be in every way conformable to justice, while at the same time preserving the utmost freedom of competition to every line in respect to the making of tariffs and otherwise.

In certain sections of New England a feeling has arisen that those communities have been benefited by the advantages which the Canadian roads have enjoyed over their competitors, and objection is made to changing present conditions. This view is clearly short-sighted, as no part of the country would be more greatly benefited by the permanent establishment of this competition on a fair and legitimate basis than would the New England States. It would be almost as much to their continuing benefit as it would be to the advantage of the Canadian roads themselves; for it is clear that unless a conclusive settlement of this embarrassing question is now reached, it will be made a matter of sectional controversy in Congress for many years to come, with the possibility that at some time the Canadian roads will be absolutely excluded from American traffic in the same manner and for the same reasons as both countries now exclude aliens from their coastwise, lake and river traffic of precisely the same character.

THE LOUISVILLE & NASHVILLE REPORT.

In one particular the reports of all American roads for the fiscal year ending last June—with their gratifying record of improvement—reveal a common feature. They show that the long period of depression, which happily came to an end a twelvemonth ago, had at least an offsetting advantage. It taught our railroads lessons of economy in management and the value of efficiency in operations. Most of all, it taught them sound, conservative methods of financiering. Many of the practices which half a dozen years ago were looked upon as wholly unobjectionable—and which really were not wrong in themselves except so far as they indicated adhesion to an unsound fiscal policy—have now been abandoned, and would indeed no longer be tolerated. Out of the change there have grown some noteworthy results. For one thing the roads find themselves able to move traffic at lower rates than ever before and yet make a profit out of the business. For another thing we find them proceeding cautiously in the matter of the distribution of profits, even when a new era of prosperity has apparently dawned; by which we mean that it is considered wiser and better to secure an improvement in the fiscal and financial condition of the properties than to enter prematurely upon the payment of new or enlarged dividends.

We permit ourselves these reflections because in the Louisville & Nashville we see this departure clearly illustrated and its wisdom plainly exemplified. The L. & N. management may indeed be said to have been one of the first to see the drift of things in the railroad world and to become impressed with the need of abandoning the old, conventional policy and substituting for it a new and enlightened policy more in accord with the needs of the day. For many years it had been paying for betterment outlays through additions to capital account. In this it was no less conservative than the management of other large systems. The practice then was well nigh universal, about the only exceptions being in the case of one or two companies holding a unique position, like the Lake Shore. The objections to the practice are well known and have been often stated in these columns. Charges to capital account in this way mean not only an enlarged debt but they mean (by reason of that fact) a constant addition to the yearly interest requirements. Furthermore, owing to the natural desire to avoid augmentation in the yearly charges, the betterments are apt to be made sparingly rather than with full freedom and liberality. As a consequence, the physical condition of the property suffers and this in turn means impaired efficiency in operations.

If such a policy is objectionable in good years, it is doubly so when the prospect is of declining earnings and revenues. The L. & N. management evidently foresaw that there was a lean period ahead. They understood that a continuation of the old policy under such conditions was like burning the candle at both ends, and if long continued must inevitably result in ruin. They accordingly in 1894 announced the adoption of a new policy. And since then all betterment and improvement outlays have been charged to expenses and been paid for out of earnings. They made some changes in other directions (as, for instance, in the matter of the treatment of sinking fund accounts), the changes being all in the direction of increased conservatism.

That the new policy has been beneficial and advantageous is evident from the creditable way in which the company passed through the trying times following 1893, when so many properties were forced to the wall. It is evident also from the increased efficiency and economy with which it is now possible to operate the road. Lastly, proof to the same effect is found in the improved physical and financial condition of the property and the excellent credit the company enjoys. As far as the finances are concerned, the financial arrangements of the late year have of course also contributed to the improvement and have furnished evidence of it. The company had $7,070,000 of consolidated mortgage 7 per cent bonds falling due in April, and these, as will be remembered, were taken up by an issue of collateral trust 4 per cents. Altogether $12,500,000 of these collateral trust bonds were issued, $7,070,000 being for the purpose named, $3,623,319 to reimburse the company for expenditures on the Paducah & Memphis Division, and the balance to liquidate its floating debt and reinforce cash in the treasury. As a consequence the management is able to make the statement that the company now has "upwards of $2,000,000 in bank and is entirely free from floating debt." At the end of the previous fiscal year the company had over three million dollars of bills payable outstanding ($3,031,628); now the corresponding item is only $26,568. Moreover, this is the first time in a good many years that the company could report itself practically free from floating debt.

But the most important fact is that notwithstanding the increase in the bonded debt in the late year (for the purposes mentioned) the company's annual fixed charges are actually falling off. The record of the payments for interest and rent has been as follows for the last five years: 1894, $5,065,277; for 1895, $5,013,738; for 1896, $4,983,096; for 1897, $4,981,993; for 1898, $4,972,592. But this does not show the full measure of the reduction that has been effected through refunding and through the policy of not increasing debt for improvement outlays. Up to 1897-8 interest account had been credited with the rent from the Paducah & Memphis Division, amounting to $154,773. In the late year, owing to a change in methods, this rent was credited to another account. On the same basis as in other years, the aggregate of the charge for interest and rent for 1897-8 would have been only $4,817,820, instead of $4,972,592, and on that basis the reduction as compared with 1896 7 is $164,173, and as compared with 1893-4, $247,457. Obviously the showing would be quite different had the company continued the old policy of charging the outlays for improvements to capital account.

The conditions which made necessary the departure are clearly revealed when a study and analysis of the company's traffic and revenue accounts is undertaken. We hear a good deal of the low rates on Western roads and the steady and large decline in these rates that has occurred within recent years. But the fact is generally overlooked that on some of the leading Southern roads, like the Louisville & Nashville, the situation as to rates has been hardly more favorable. It will no doubt be a surprise to the reader to hear that the L. & N. in the late year realized an average of only three-quarters of a cent (7½ mills) per ton per mile on its entire freight tonnage. Any one with only a slight acquaintance with railroad affairs will recognize that this is a low average for a system possessing the kind of traffic which the L. & N. has.

Going back to 1892-3 we find that the average rate then was still close to a cent a ton a mile, the actual figure being 0·932 cent. In other words, in the brief period of five years there has been a decline in this average of almost 20 per cent.

We have selected the year 1892-3 for comparison because that was the year of heaviest earnings in the company's history, both gross and net. The very next year (following the panic of 1893) there was a very notable drop. Since then there has been a steady recovery, the gain in the late year having been particularly marked. Nevertheless, the earnings have not got back to the large totals of 1892-3, the net being nearly a million dollars behind, and the gross about $400,000 behind. The smaller net might not possess much significance, owing to the inclusion of the betterment outlays in expenses now, but the falling off in the gross is entirely due to the lower rate received, and indicates how very much more traffic it is necessary to move now to earn the same amount of money We may say that in the passenger department the decline in average rate has been nearly as marked as in the freight department, this average having been only 2·15 cents per passenger per mile for the late year, against 2·42 cents in 1892-3. In this case, too, the volume of traffic for 1897-8 was not quite equal to that for the earlier year, though the difference is not very great, the road having carried roughly 208 million passengers one mile in 1897-98, against 211⅝ millions in 1892-3. In freight, however, the volume of traffic was very much heavier. In 1898 the road moved 2,011 million tons one mile, in 1893 only 1,595 million tons. Yet this tremendous expansion in tonnage gave only a slight addition to the freight revenues because of the shrinkage in rates—not enough addition to offset the loss in the passenger department. Had the company been able to obtain on the tonnage of 1897-8 the rate realized in 1892-3, both gross and net earnings would have been $3,660,000 greater than they actually were—an amount equal to 7 per cent on the company's stock outstanding.

Such conditions obviously made it desirable to avoid an increase in the yearly call for interest (bearing in mind that mercantile affairs in the United States were going through a period of depression), and we have seen above how well that object has been attained. The same conditions likewise called for increased efficiency in operations, and as one evidence of the progress made in that direction, it is only necessary to say that during these five years the company has increased its train load from an average of 166 tons to an average of 193 tons.

Obviously the policy of paying for improvements out of earnings might be carried too far. But if any one was apprehensive lest the management should pursue an arbitrary course in this respect, he will be reassured by the remarks contained in the present report bearing on that point. The shareholders have had no dividends since 1893. But Mr. August Belmont states that the improvement in the physical condition of the property—its rolling stock, etc.—which has been made in the five years since then will relieve the management from further extraordinary expenditures for improvements. He announces moreover that "it is proposed to consider surplus hereafter earned, over and above operating expenses and fixed charges, for each year, as a basis for dividends for such year, which dividends will be regulated by the amount so earned for that period." He takes pains at the same time to state that "it is not contemplated to use any of the accumulated surplus of the company for the payment of dividends."

This is a definite announcement of policy, and it should be satisfactory to the security holders. The results for the late year will afford some idea as to what dividends the company is likely to be able to pay. The income account shows a surplus of $1,632,901 on the operations of the twelve months, equal to a little over 3 per cent on the stock outstanding. This is after paying out $659,950 for improvements (the amount having been directly charged to expenses), and it is after making contributions of $188,382 on sinking fund and discount account, besides allowing in full for the loss ($175,100) in the operation of the Georgia and other leased roads. It is well enough to point out too that not all the influences bearing on traffic and revenue were favorable during the late twelve months. Business revival of course was a decided advantage. But the fact should not be overlooked that as the road is in the South, and not in the West, there was no such opportunity for expansion as there was in the case of the Western roads. The cotton crop, to be sure, was a large one, but on the other hand there was an offsetting disadvantage in the fact that the price of the staple ruled very low. The yellow fever last autumn also for a time proved an important drawback.

The surplus of $1,632,901 on the operations of the twelve months was transferred to the credit of profit and loss account. As to the disposition to be made of it half a million dollars has been appropriated for couplers and air-brakes (to comply with the law passed by Congress) for equipping the remainder of the company's rolling stock; half a million dollars more has been appropriated for equipment and $248,441 for reductions of grades. Obviously the effect of all this will be to further strengthen and improve the position of the company. It is worth noting that the practice of applying surplus revenue for the purpose of meeting the requirement of the law regarding couplers and air-brakes has found favor in the case of several roads recently. The Illinois Central management, for instance, appropriated $528,000 out of surplus in this way in the late year.

NASHVILLE CHATTANOOGA & ST. LOUIS.

The Nashville Chattanooga & St. Louis, though constituting an important system in itself, is controlled through the ownership of a majority of its stock by the Louisville & Nashville. It is, however, operated separately, and its business is not included in the report and accounts of the L. & N. Major J. W. Thomas, under whose excellent management the property has thriven so long, still remains the executive head of the company.

The property has for many years been in a prosperous state, returning larger or smaller dividends to its shareholders in good times and poor times alike, and the results for the late year show that the company is still enjoying the same even career. The report will perhaps however attract more attention than usual because some considerable additions to the mileage of the system have been made within recent periods, and every one is interested in knowing how far these additions are proving profitable in themselves and what effect they are having upon the fortunes of the parent company. The late year was on the whole a very good one for the road, and an important addition

to its revenues was effected. Indeed the traffic and earnings of the system have been steadily rising in all recent years, and the aggregate amount of this increase reaches important proportions.

As the system is not a large one, the extent of the expansion seems to have escaped notice. To say that gross earnings in the late year were added to in the sum of over half a million dollars ($530,430) may not seem very striking in these days of large gains, and yet in the present case it represents a gain of over 10 per cent, and this on substantially the same mileage, the operations of the Memphis & Paducah Division, to which we shall allude again further below, not being included in the general results. More important still, this gain for the late year followed on top of other gains in the years preceding; if we compare with 1893-4, we find gross of $5,646,549 now, against only $4,521,662 in that year. Things were at a low ebb, to be sure, in 1893-4, but even as compared with 1891-2, which was the best of recent years, there is an improvement of close on to three hundred thousand dollars.

We thus have striking evidence of the way the traffic of the system is being developed. In the net earnings the gains have been comparatively small, the management evidently following the policy of expanding or contracting expenses with a gain or loss in gross—that is, outlays are made with greater freedom and fullness in a year of good business than in a year of poor business. The net at $1,982,723 for 1897-8 compares with $1,911,447 for 1896-7, with $1,850,482 for 1893-4 and with $2,029,008 for 1891-2. At $1,982,723 for the late year, the amount was sufficient to provide for all charges and for the $100,000 required to meet the 4 per cent dividends now being paid on the company's stock and yet leave a balance of $60,524. In the previous year, net earnings having been smaller, the surplus above the dividend requirement was but $3,015.

With reference to the new acquisitions, the Memphis & Paducah Division is the most important of them. This is a consolidation of the former Paducah Tennessee & Alabama and the Tennessee Midland roads, and the road, as is known, is leased from the Louisville & Nashville. It consists of a line from Memphis to Paducah, 229½ miles, with a branch from Perryville to Lexington, 24 miles, making altogether about 254 miles. It appears that allowing for the rental paid for the line, it was operated at a loss of $49,741. The surplus of $60,524 which the Nashville & Chattanooga showed on its own operations for the late year would be more than sufficient to take care of this deficiency. It is proper to say, though, that the deficiency noted does not indicate the advantages accruing from its operation; as a matter of fact the Nashville & Chattanooga derived $266,964 of revenue on business received from and delivered to the Memphis & Paducah Division. As to the Middle Tennessee & Alabama, which is another new acquisition, the completed portion of that line has only just been opened for operation. In the purchase some years ago of the Rome RR. the Nashville Chattanooga & St. Louis incurred a liability which has ever since been represented by bills payable. In the late year this item was further increased somewhat, and now stands at a little over 1½ million dollars. As concerns the ordinary current liabilities, the offsets in the shape of cash assets are greatly in excess of the same.

Transactions of the Stock Exchange Clearing House.—The subjoined table, covering clearings for the current week, usually appears on the first page of the CHRONICLE, but on account of the length of the other tables is crowded out once a month. The figures are received by telegraph from the leading cities. It will be observed that as compared with the corresponding week of 1897 there is an increase in the aggregate of 9·7 per cent. So far as the individual cities are concerned, New York exhibits an increase of 15·6 per cent, and the gains at other points are: Boston 0·8 per cent, New Orleans 3·2 per cent, Philadelphia 7 per cent, Chicago 10·4 per cent, Baltimore 29·9 per cent and St. Louis 16·3 per cent.

Monetary & Commercial English News

[From our own correspondent.]

LONDON, Saturday, Sept. 24.

As the weather continues beautiful, very few people have yet returned to the city, and business in consequence is very slack. Besides there has been some renewal of political anxiety this week. The first cause for uneasiness has been the comments of the Paris Press upon the reported presence of Frenchmen at Fashoda. It was generally assumed here that the French Government would declare that the Marchand expedition was purely scientific. But if the French Press reflects French opinion, and especially Governmental opinion, this will not be the case. So long ago as when Lord Rosebery was Prime Minister, his Under Secretary for Foreign Affairs, Sir E. Grey, declared in the House of Commons that a French advance upon the Upper Nile would be regarded as an unfriendly act—a form of speech which, coming from a British Minister in his place in Parliament, is exceedingly strong. Yet in spite of that, it is now believed that the French Government has sent Captain Marchand with some officers and Senegalese soldiers to Fashoda. The inference is that action hostile to this country is intended, and if it is there will be a period of very strained relations between the two countries; for public opinion here would not tolerate any concession, even the smallest, upon that point.

Another matter that is causing a good deal of uneasiness in the city is the reports that reach here of naval and military preparations both in Chili and Argentina. British investments in both republics are large, but they are very much the largest in Argentina, where they are estimated to amount to something between 160 and 200 millions sterling War between the two republics, therefore, would endanger an immense amount of British property, and the threatened war is about a matter of no real importance to either State. If the facts before the public are correctly stated, Chili is willing to lay the whole matter without reserve before the Queen as arbitrator. Argentina is also willing to arbitrate, but it makes various reservations which Chili will not accept As matters stand, the financial condition of Chili is such that she cannot afford to continue the present naval and military preparations. Happily, private telegrams from both countries were received in the city yesterday saying that the arbitration agreement is signed. The greatest confidence has all along been felt here that General Roca, who will be installed as President on October 12, would take care that he does not inherit an unnecessary war.

Anxiety about Cretan affairs is abating. The Turks have yielded to most of the demands made by the British Admiral, and it seems now as if some kind of order would be restored, although very little hope is entertained that this country, Russia and France can come to any definite agreement as to the future Governor of the Island.

But perhaps the matter which excites the greatest uneasiness here is the internal condition of France. The agitation respecting the Dreyfus case has brought out so much reflecting disgracefully upon the French General Staff that very serious fears are entertained of a military *coup d'etat*. As there is no general in France of any reputation, it is difficult to believe that the general body of officers would make a despot of any existing officer. On the other hand, the desperation of the General Staff is such that nobody knows what to expect next, especially as the executive and the judiciary seem to be completely under the orders of the General Staff. The postponing of Colonel Picquart's trial and the handing him over to his military persecutors have deepened the apprehensions, especially as he thought it necessary for his own safety to declare in court that he had no intention to commit suicide, and if he was found dead it would be a case of murder.

Lastly, the prospect of dearer money has for the moment taken the Stock Exchange completely by surprise, and somewhat disorganized markets. The feeling will, of course, pass away, as very probably rates will not rise unduly high. But added to all the political preoccupations, it increases the unwillingness of the public to engage in new risks. For some time past there has been an increased dealing in American railroad securities, but it has been confined to members of the Stock Exchange and professional operators. The great body of the public are holding quite aloof, not in that market only but in every department. They are reluctant to part with their money so long as there is any danger of political disturbances. On the other hand, there is much to show that if political confidence could be revived there would be a very great increase in business. As a matter of fact business on the Stock Exchange has been better all through the year than it was last year. The Clearing House returns up to the present date show an increase compared with the corresponding period last year of about 115 millions sterling on Stock Exchange pay-days.

The general trade of the country is undoubtedly also much better. The whole increase in the Clearing-House returns is over 450 millions sterling. It ought to be added that of recent months the increase has not been anything like as great as it was in the earlier part of the year. Still trade is good. There is no speculation. The harvest has been better than for a good many years, and it has been got in in excellent condition. The directors of the Bank of England on Thursday raised their rate of discount from 2½ per cent to 3 per cent. The rate was put down to 2½ per cent on the last day of June, exactly 12 weeks ago. Even then the directors very reluctantly lowered it. They had been all through the spring endeavoring to increase their reserve. For that purpose they had borrowed largely in the open market, and thereby got control of the market for many months. Unfortunately, the final payment of the war indemnity made by China to Japan enabled the latter to lend upon an immense scale in the London market, and thereby all the efforts of the Bank were defeated. Now, however, it has become absolutely necessary to strengthen the Bank reserve. The Bank in consequence has again been borrowing in the open market, and has now, as stated, put up its rate to 3 per cent.

The general impression here and upon the Continent is that neither Germany nor Russia, nor Austria-Hungary, will do anything to disturb the London market, and it is certain that Japan will not. Therefore the immediate course of the market depends mainly upon the amount of gold which may be taken by New York. Of course it is certain that the usual autumnal requirements for the interior, Scotland and Ireland, as well as for such countries as Egypt and South America, will have to be provided. But these requirements can fairly well be estimated beforehand, and would not very much disturb the market. A large demand, however, for New York could not be reckoned with beforehand, and might place the Bank in a very inconvenient position.

In India the slack season continues, and consequently the money market is comparatively easy. But the scarcity of rupees is greatly felt, and in consequence the India Council continues to sell its drafts exceptionally well. On Wednesday it offered for tender 35 lacs, and the applications exceeded 103 lacs. The whole amount offered was sold at prices ranging from 1s. 3 15-16d. per rupee to 1s. 4 1-32d. per rupee. Next Wednesday 40 lacs will be offered for tender.

The following return shows the position of the Bank of England, the Bank rate of discount, the price of consols &c., compared with the last three years:

Messrs. Pixley and Abell writes as follows under date of Sept. 22:

Gold—There has been an active market in gold during the week, America being a large buyer; besides taking £300,000 from the market she has withdrawn over one million and a quarter in gold from the Bank. The Bank received £30,000 sovereigns, from Australia, and has lost £245,000 in sovereigns, £463,000 in Eagles and £577,000 in bars, making a net loss of £1,255,000. Arrivals: India, £60,000; Australia, £52,000; Chili, £11,000; South Africa, £191,000; New Zealand, £28,000. Total, £342,000. Shipments: Japan, £5,000.

Silver—There has been a large business in silver during the week. India has been a steady buyer, the price having risen in India to as high as 72½ rupees, and in addition there has been a fair amount of buying to close September contracts. The price has risen from 2-d. to as high as 2 13/16d., and closes dull at 2 8/16d. Arrivals: New York, £288,000; New Zealand, £7,000; Chili, £12,000. Total, £307,000. Shipments: Calcutta, £10,000.

Mexican Dollars—Dollars have been dealt in at about their silver value, and there has been a fair business in them. Arrivals: New York, £39,000. Shipments: Straits, £48,000; Hong Kong, £26,000. Total, £74,000.

WALL STREET, FRIDAY, OCT. 7, 1898.—5 P. M.

The Money Market and Financial Situation.—While professional traders have been again prominent at the Stock Exchange and have succeeded in effecting wide fluctuations in several speculative issues, there has been a broadening of the security markets and an increase of legitimate business this week in Wall Street. Evidence of this is seen in a more active and firmer market for railway bonds than has existed for several weeks past, in an advance in Government 3s to the highest quotations recorded for them, and in a moderate increase in commission house buying of standard shares. The outside public is evidently again taking an interest in railway securities, stimulated by the excellent traffic reports recently made, by the prospect of a large increase when the grain movement becomes more general and by the easier money market. Perhaps the strongest influence, however, in bringing about a change of sentiment in financial circles is the more promising political outlook and the hope of favorable legislation affecting our financial system during the coming session of Congress.

An investment demand for long sterling bills is a new feature of the foreign exchange market, the natural tendency of which will be to restrict gold imports for a time. The money market has been steadily growing easier during the week and rates are correspondingly lower.

The open market rates for call loans on the Stock Exchange during the week on stock and bond collaterals have ranged from 1½ to 4 per cent. To-day's rates on call were 2 to 2½ per cent. Prime commercial paper quoted 3½ to 4½ per cent.

The Bank of England weekly statement on Thursday showed a decrease in bullion of £1,430,022, and the percentage of reserve to liabilities was 44·20, against 47·53 last week; the discount rate remains unchanged at 3 per cent. The Bank of France shows a decrease of 9,475,000 francs in gold and 5,425,000 francs in silver.

The New York City Clearing-House banks in their statement of Oct. 1 showed an increase in the reserve held of $7,418,000 and a surplus over the required reserve of $15,327,150, against $8,252,875 the previous week.

State and Railroad Bonds.—Sales of State bonds at the Board are limited to $62,500 Virginia fund. debt 2-3s of 1991 and $4,000 Tennessee settlement 3s at 93¼.

There has been a better market for railway bonds than we reported last week. At the Exchange the volume of business increased to an average of about $2,250,000 par value per day, and the market was generally firm, with a notable advance in some issues. Wisconsin Central trust receipts lead the list in this respect, closing to day at 59, a gain of nearly 7 points from Monday's opening price. Atchison adjustment 4s, in sympathy with the preferred shares, were active at an advance of about 2 points. Texas & Pacific 2ds were also in request and show a similar gain. Union Pacific 4s, Southern Railway 5s, Missouri Kansas & Texas 1sts and Erie prior 4s are among the issues which advanced a point or less. The active list includes also Northern Pacific, Reading, San Antonio & Aransas Pass and Union Pacific Denver & Gulf bonds.

Railroad and Miscellaneous Stocks.—The stock market has been fairly active, transactions at the Exchange averaging nearly 420,000 shares per day. Some of the industrial stocks continued to fluctuate violently during the early part of the week, but the whole market settled into a more normal condition on Wednesday. The railway list was generally firm and quotations advanced between 1 and 2 points in many cases. The grangers were notably strong on St. Paul's excellent traffic report for the fourth week in September and for the entire month. Thursday's market was somewhat irregular. A feature of yesterday and to-day was liberal selling of Northern Pacific common which resulted in a decline of 2⅜ points on rumors of new complications. The local traction stocks were most erratic of the railroad list. Brooklyn Rapid Transit advanced over 5 points and Metropolitan Street Railway 8¼ points, while Manhattan Elevated fluctuated over a range of 5¼ points and closes with a small net loss.

Speculative manipulation of the industrials carried American Tobacco down to 113, a decline of 12½ points from our last quotation and of over 40 points within two weeks, from which some recovery has been made. Within the week American Sugar Refining has covered a range of 6½ points, Consolidated Gas 12 points, New York Air Brake 15½ points, Hawaiian Sugar 6 points, American Cotton Oil and United States Rubber nearly 4 points each.

Investment AND Railroad Intelligence.

RAILROAD EARNINGS.

The following table shows the gross earnings of every STEAM railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from January 1 to and including such latest week or month.

The returns of the street railways are brought together separately on a subsequent page.

a Net earnings here given are after deducting taxes.

b Net earnings here given are before deducting taxes.

c Deducting other expenditures for repairs, replacements and general expenses, net income applicable to interest on bonds in August was $110,468, against $119,843 last year, and for January 1 to August 31 $757,729, against $994,144. This is the result in Mexican dollars treated (according to the company's method of keeping its accounts) as equivalent to 80 cents in United States money—that is, depreciation beyond 20 per cent has already been allowed for.

STREET RAILWAYS AND TRACTION COMPANIES

The following table shows the *gross* earnings for the latest period of all STREET railways from which we are able to obtain weekly or monthly returns. The arrangement of the table is the same as that for the steam roads—that is, the first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings or the calendar year from January 1 to and including such latest week or month.

Street Railway Net Earnings.—The following table gives the returns of STREET railway gross and net earnings received this week. In reporting these net earnings for the street railways, we adopt the same plan as that for the steam roads—that is, we print each week all the returns received that week, but once a month (on the third or the fourth Saturday) we bring together all the roads furnishing returns, and the latest statement of this kind will be found in the CHRONICLE of September 24, 1898. The next will appear in the issue of October 22, 1898.

ANNUAL REPORTS.

Annual Reports.—The usual index is omitted this week but that published in the CHRONICLE of Sept. 24 covers all reports published to Sept. 17, inclusive.

Union Pacific Railroad.

(Report for Six Months ending June 30, 1898.)

The first report of this company appeared this week and will be printed in the next issue of the CHRONICLE. The income account, as given in the report, has already been published and will be found on page 631 of the issue for Sept. 24, 1898.—V. 67, p. 631, 635.

Louisville & Nashville Railroad.

(Report for the year ending June 30, 1898.)

The annual report of the Board of Directors (Mr. August Belmont, Chairman, and Mr. M. H. Smith, President), will be found in full on pages 738 to 746 of the CHRONICLE, with many valuable tables.

The statistics for four years have been fully compiled for the CHRONICLE as below:

New York New Haven & Hartford RR. Company.

(Report for the year ending June 30, 1898.)

President Charles P. Clark says in substance:

No Floating Debt, Etc.—There is no floating debt, and no charge to construction except for purchases of real estate, amounting to $153,951. The charges made to operating expenses to meet general depreciation aggregate $1,146,816 viz.:

Three hundred 30 ton coal cars, $165,984; ten freight locomotives, $118,142; payments on account of two tugs and cost of one car float, $103,839, power station, Stamford, $75,404; power station, Berlin, $41,044; electric equipment New Canaan and New Britain branches, $37,713; new second track, New Britain branch, $34,000; Dedham & Hyde Park improvements, $152,958, etc., etc.

Merger.—The Housatonic RR., extending from Bridgeport to the Massachusetts State line, and branches, 90 miles, has been merged as per certificate filed March 29, 1898. Its mortgage debt of $3,000,000 became an obligation of this company, and its cost of improvements became part of our own construction account. On July 9, 1898, the Shepaug Litchfield & Northern RR. Co., 35·61 miles, was merged, making the sixth road merged under the Act approved June 14, 1889.

On the first day of July this company assumed direct management of the New England RR., the Shepaug Litchfield & Northern RR., and also of the Norwich & New York Transportation Co., the Old Colony Steamboat Co. and the Providence & Stonington Steamship Co. The earnings of these properties will hereafter be included in our returns. On the basis of last year our earnings will aggregate $40,000,000.

New England RR. Lease.—Agreeably with the circular of May 10th, a lease of the New England RR. was unanimously approved by the stockholders, and took effect on July 1, 1898.

Stock Sept. 1, 1898.—The capital stock on the 30th day of June was 476,332 shares, an increase of 210 shares. To Sept. 1st there had been issued, pursuant to the agreement touching the New England RR., 18,331 shares of New Haven stock in exchange for 66,655 shares of the common and 14,707 shares of New Haven stock for 29,414 shares of the preferred stock of the New England Co., which, together with the shares owned by this company, left outstanding only 12,811 shares of common and 5,571 shares of preferred. As a result, on Sept. 1, 1898, there were 8,503 shareholders of this company (an average holding of less than sixty shares) and a capital stock of $50,437,000. Of the total shareholders 3,280 are males, 3,849 females, 264 are partnerships, hospitals, libraries, life and other insurance companies, and savings banks, and 1,115 are trustees and guardians. Geographically they are distributed as follows: Massachusetts, 3,845, holding $16,317,900; Connecticut, 2,6[illegible]4, $12,363,00[illegible]; New York, 1,455, $17,257,700; Rhode Island, 488, $2,388,400; other, $2,110,000.

Union Station of Boston Terminal Co.—Nearly Completed.—The new union station in Boston, erected by the Boston Terminal Co., is fast approaching completion, and the work of extending the tracks of the Boston & Providence RR. to a connection therewith, and the incidental construction of a new passenger station at Dartmouth Street, in Boston, is progressing favorably. The construction of four tracks through the city of Bridgeport has been delayed by the causes mentioned in the last general statement.

Electric Lines.—Since June 30th the use of electricity has been extended on the Plymouth division from East Weymouth to Braintree, 4½ miles, and on the Highland division from New Britain to Bristol, 9 miles, by the third rail; and on the New Canaan branch, 8 miles, by overhead trolley. Arrangements have also been made to operate the line from Providence to Bristol and Fall River, 21 miles, by overhead trolley as soon as practicable.

Reduction of Rates.—The tendency to reduction of freight rates appears by the general statement. At the rates of 1889 our freight earnings of 1898 would have been nearly three millions of dollars greater.

Toledo & Ohio Central Railway Company.

(Report for the year ending June 30, 1898.)

President Stevenson Burke says in substance:

General Results.—A small increase in the gross earnings and a small reduction in the operating expenses have produced an increase in the net earnings of $68,214. This increase, although small, is gratifying, in view of the difficulties encountered during the past year. There was nearly three months of practical suspension of coal mining in Ohio, caused by the miners' strike, which very greatly affected both our gross and net earnings. Notwithstanding the reduction in operating expenses the equipment and line have been fully maintained. The company several years ago ceased to keep any construction account. The increase in earnings since the close of the fiscal year gives promise of much better earnings for the current year.

Kanawha & Michigan.—The gross earnings of the Kanawha & Michigan have increased from $479,488 to $558,342, and the net income from $119,335 in 1897 to $152,442, the net result being that the company has met all its fixed liabilities and has a net balance of $14,294, and this after charging up to interest account, which accrued in previous years, $17,789, showing that the actual net earnings of that line during the past year were about $30,000 over all its fixed charges. The line of this railway has been very much improved by ballasting, filling trestles and otherwise during the year, and should not only be self-supporting in the future but should bring fair revenue on the investment of your company in its stock, as well as greatly add to the earnings of your line.

Statistics.—The operations, earnings, expenses and charges for four years were as follows:

Chicago Indianapolis & Louisville Ry.

(Report for the year ending June 30, 1898.)

President Samuel Thomas says in substance:

General Results.—The results for the year as given are highly satisfactory, the earnings exceeding those of any year, with the exception of the World's Fair year. The surplus over fixed charges is $89,129. This is the result after charging to operating expenses $20,500 each month for the replacement account, or $13,000 more than formerly.

Guaranties.—Recognizing the importance of the stone business along the line of your road, your directors have guaranteed the payment of the principal and interest of the entire issue of the first mortgage gold bonds of the Perry, Mathews, Buskirk Stone Co., amounting to $250,000, in consideration of receiving a majority of the stock.

At the annual meeting of the stockholders to be held on the 21st inst., it is proposed to submit a proposition for the guaranty of the bonds of the Indiana Stone RR. Co. Said railroad will leave our line near Clear Creek Station and connect again near Harrodsburg, forming a cut-off ten miles in length, the maximum grade of which will be thirty feet to a mile. The present grade between these points is eighty-eight feet, over which we can haul fifteen loaded cars with our big engines. On the new line, with the same engines, we can haul thirty-eight loaded cars. This road will open up a new stone district and add materially to our business.

Arrangements are now being made to control the business of the Consolidated Stone Co., which owns valuable stone properties in Lawrence and Monroe counties, Indiana.

Financial.—An agreement has been entered into for 250 flat cars and 50 stock cars—payments to be made ten per cent cash and balance in sixty notes of $1,839 37 each, due monthly. Under a resolution adopted Sept. 15, 1897, $1,116,250, the remainder of the $5,000,000 preferred stock authorized by the charter, has been sold at the rate of $30 per share and the proceeds, $334,875, have been deposited in the bank.

The accounts have been examined by the Audit Company.

Physical Condition.—The following data are given:

There was purchased during the year 3,357 tons of 75-lb. per yard steel rail. The main track is all laid with steel rail as follows: 75-lb. 119 miles; 67-lb. 159 miles; 60-lb. 112 miles; 56-lb. 59 miles; 52-lb., 59 miles. Total, 509 miles. Cross-ties placed in track during the year, 252,034 first-class and 40,653 second class. During the year 95 miles of track were ballasted with gravel at a cost of $52,068. The ballasted track includes: Ballasted with earth, 155 miles; cinders, 37 miles; gravel, 264 miles; stone, 53 miles. Total, 509 miles.

On June 30, 1898, there were on hand 83 engines, of which 57 were in good condition; 14 fair condition; 12 in bad condition.

The plan of reducing grades between State line and Monon, commenced last year, has been continued and will be completed by Sept. 30. The reduction in grades and improvement in equipment has enabled us to increase our tonnage per train from 209·91 to 230·07.

Oregon Short Line Railroad Co.

(Report for the period from March 16, 1897, to June 30, 1898.)

The company came into possession on March 16, 1897, and this, the first report, covers operations from that date to June 30, 1898. President Samuel Carr says in part:

General Results.—For the first full fiscal year ending June 30, 1898, the company earned its full interest obligations on its income A and income B bonds; viz., 5 per cent on the income A bonds and 3 per cent on the income B bonds. The reorganization committee has furnished this company with funds for the making of necessary improvements, and especially for a large amount of new 70-pound rails, in addition to which there has been expended and charged to operating expenses a larger amount than it is estimated would ordinarily be required for renewals during a corresponding period.

Oregon Railroad & Navigation Company Stock.—This company owns $976,900 in the preferred capital stock of the Oregon RR. & Navigation Co. free from all incumbrance, upon which it has received dividends to the amount of $39,074, and also owns $16,244,400 of the common capital stock of that company subject only to the lien of the income B bonds.

Coal Industry.—There are now in course of development extensive bituminous coal mines at Diamondville and Kemmerer, Wyoming, on the line of your railroad, which have furnished a large and profitable coal traffic for the company. The coal is of great volume and of superior quality, and the enterprise promises to be one of the most important in the West. The opening of these mines has reduced the average cost per ton for coal consumed by your company during the year to $1 29, in comparison with $1 84 for the year 1896-97.

Extension to Pioche.—Western capitalists, with the co-operation of this company, have recently made arrangements for the construction of a line of road from Milford, Utah, for a distance of about 80 miles southwest towards Pioche, which, it is anticipated, will prove a valuable feeder to this company.

Settlements.—Arrangements have been made for securing to this company the property of the Boise City Railway & Terminal Co. and for the settlement of the old disputes with the Union Pacific Ry. Co.

St. Paul & Duluth Railroad.

(Report for the year ending June 30, 1898.)

President R. Somers Hayes says in part:

General results.—Freight earnings were increased both by greater tonnage carried and better rates received. The large increase in expenses of maintenance of way is due to heavy storms and floods, necessitating repairs costing $26,023, and amount of new steel rails charged for replacement.

Equipment.—Contract has been made under the equipment trust plan for 200 sixty-thousand-pound-capacity box cars, which are necessary for the traffic. The automatic couplers and air-brakes are being placed upon the freight equipment, and it is expected this work will be completed in time to comply with the law; the cost is now charged to "construction, improvement and betterment account."

Maintenance.—During the year 15 miles of steel rails were laid on main track, and 7½ miles of old iron rails replaced on branches by old steel rails from main line. 114,222 crossties were placed in track, and the store houses in Duluth received more than average repairs.

New mortgage.—Stockholders representing more than two-thirds of the preferred stock and one-half of the common stock voted at the meeting on April 14, 1898, in favor of the issuance of $5,000,000 first mortgage consolidated bonds to be used for the purposes stated in the circular of Feb. 1, 1898, and in accordance with this authority a mortgage for this amount has been executed to the Guarantee Trust Co., of New York, trustee, the bonds bearing rate of interest of 4 per cent, and to run for a period of seventy years from the first day of June, 1898. No sale of any of these bonds, however, has yet been made. At this meeting it was decided also that articles of consolidation of the branch lines upon the basis proposed be submitted to the stockholders for final approval at the next annual meeting of the company, and due notice has been given that such action will then be taken.

Union Traction Company of Philadelphia.

(Report for the fiscal year ending June 30, 1898.)

The annual report is signed by President John Lowber Welsh, who resigned this week. It says in substance:

Increased Profit.—The result of the year's business is a profit of $24,620, as against a loss last year of $851,935. This has been accomplished by a substantial gain in gross receipts and strict economy in every department.

Hestonville Mantua & Fairmount.—On Jan. 1, 1898, the Hestonville Mantua & Fairmount Passenger RR. was leased at an annual rental of $3 per share on the preferred stock and $2 per share on the common stock. Your company also purchased 4,780 shares of the preferred stock and 35,294 shares of the common stock of said company at a cost of $2,298,408. To make this payment the above amount was borrowed, and the loan is to be repaid Nov. 15, 1898. To meet this loan, and also for improvements made and being made, an instalment of $5 per share on the capital stock of the Union Traction Co. will be called. [This call was announced last week.—ED.] The receipts and expenditures of the Hestonville system from Jan. 1, 1898, are included in the statement of this company for the year.

Power House.—The power-house at Thirteenth and Mount Vernon streets, which was seriously crippled by fire on March 3, 1897, has been rebuilt, and is now in thorough working order. The net loss of $68,693 was paid out of the insurance fund.

Extensions.—The following extensions are mentioned:

The tracks of the Chelten Avenue Passenger Ry. are now being extended to connect with the tracks of your company on Old York Road. It is also the intention to extend the tracks of the Twenty-second and Allegheny Avenue Passenger RR., which now stop at Germantown Avenue and Hunting Park Avenue, east on Hunting Park Avenue to connect with the tracks on Old York Road. The Germantown Passenger Ry. is being extended from Hillcrest Avenue to the county line, a distance of about 2,000 feet, making a connection with the Roxborough Chestnut Hill & Norristown Passenger Ry. This will give a through line to Norristown. The tracks of the Thirteenth and Fifteenth Streets Passenger Ry. Co. were extended as far as League Island, and the road opened for travel March 13, 1898.

Tax Decision.—By a decision of the Dauphin County Court your company has been relieved from the payment of tax on Electric & Peoples Traction 4 per cent stock trusts, which was estimates at $105,000 per annum. Up to the present time no appeal has been taken by the State from this decision.

Capital Account.—The balance, as per statement, June 30, 1897, was $562,262, and the receipts during the year were $144,768, making the total available $707,030. This sum has been applied as follows: Advances to leased roads, $106,828; construction work, $252,673 (of which $164,755 for power-house and $25,095 for car equipment); construction work extension, account of leased lines, $139,424; paid for stocks of underlying companies, $103,980; real estate, $31,749; advanced in open account, $267,502; miscellaneous, $1,012; total above disbursements, $903,169. Amount of operating cash used in above payments, $196,139.

Earnings, Etc.—The company's earnings and balance sheet compare as follows:

	1897-98.	1896-97.		Inc. or Dec.
No. passengers carried	238,939,353	228,102,758	I.	10,836,595

GENERAL INVESTMENT NEWS.

Reorganizations, Etc.—*Defaults, Reorganization Plans, Etc.*—The usual index is omitted this week, but that covering the items published to Sept. 17, inclusive, will be found in the CHRONICLE of September 24.

Alabama Steel & Ship Building Co.—Tennessee Coal Iron & RR.—*Mortgage Filed.*—The Alabama Steel & Ship Building Co. has filed its mortgage for $1,1[illegible]0,000 to the Manhattan Trust Co. as Trustee.—V. 67, p. 127.

Allegheny & Western Ry.—Buffalo Rochester & Pittsburg Ry.—*Official Statement.*—Adrian Iselin Jr., Vice President of the Buffalo Rochester & Pittsburg, writes us as follows as to the new A. & W. line:

There is no truth in the report that the construction of the line has ceased; on the contrary, it is being actively prosecuted, and there is every prospect of the line being open for business in the spring of 1899. It has, however, been decided only to build to Butler, a distance of about 60 miles from Punxsutawney. From Butler to New Castle the Pittsburg & Western Railway will be used under a track age arrangement. The mortgage has not yet been created, and will not be until the proceeds of $2,000,000 of stock at par has been first expended, which will probably not be until the end of the year. On Oct. 11 the amount paid in on the stock will be $1,200,000.—V. 67, p. 423,432, 72.

American Cotton Oil Co.—*Preliminary Report.*—A preliminary report to the directors indicates, it is stated, that the complete returns for the fiscal year ending Aug 31, 1898, will show net profits of $700 000 for the common stock, as compared with $403,000 in the previous year. The directors will decide Nov. 1 on disposition of profits.—V. 65, p. 975, 9[illegible]3.

American Screw Co.—*Sale of Foreign Plants Authorized.*—The stockholders, at a meeting on Sept. 29, voted unanimously to sell the foreign properties of the company, viz: The British Screw Co., Limited, of Leeds, England, and the Canada Screw Co., Limited, of Dundas, Ontario. The action was taken without knowledge of the purchaser or the price to be received for the English company, on the assurance that the sale was satisfactory to the Board of Directors. The last annual report intimated that some such action was desirable.—V. 66, p. 382.

American Type Founders' Co.—*Official Statement.*—The following official statement is made regarding the resumption of dividends announced last week:

The company has had the most successful year since its organization, its net earnings for the fiscal year ended August 31 being over $[illegible]69 000, after deducting interest, fixed charges and all other expenses. This is at the rate of over 4 per cent upon the entire capital stock of $4,000,000. The company has expended more than $400,000 out of its earnings during the past three years in improving its various manufacturing plants, and the manufacturing costs have been reduced to the lowest of any concern in the trade by the improved plants of automatic machinery. Dividends could have been commenced last year, but the management felt that conservatism required the accumulation of a liberal surplus, so that dividends might be maintained when they were resumed. The business of the company has been largely increased during the past year, and it is expected that dividends will be maintained at the rate of not less than 1 per cent quarterly.—V. 67, p. 688.

Boston National Banks.—*Pending Consolidation.*—Kidder, Peabody & Co. are conducting the negotiations for the consolidation of a number of Boston banks. The prices to be given to the shareholders for their stock are about $12 per share above late market values, viz.:

Boston National Bank, $99 25 per share; Columbia National Bank, $96 87½ per share; Hamilton National Bank, $114 per share; Howard National Bank, $97 25 per share; North National Bank, $102 per share; Market National Bank, $77 per share; National Eagle Bank, $85 per share; National Bank of North America, $102 25 per share; National Revere Bank, $92 per share.

"The total capital, surplus and undivided profits represented in the book value of these institutions is $10,431,500. The total selling price is $8,247,250, but of course the selling price does not apply to all stocks, as many stockholders and possibly some savings banks who have not already voted upon the question will elect to take the proceeds of the receipts in liquidation."

Carolina Central RR.—*Plan Effective.*—The reorganization plan of July last, CHRONICLE of Aug. 6, p. 273, has been declared effective. Jos. S. Stout, Chairman of the bondholders' committee writes us as follows:

"The plan has been declared effective, as two-thirds of each issue of bonds and stock have either signed the agreement or deposited the securities in the Trust Co. Therefore, in the opinion of the committee the plan will succeed and no foreclosure be necessary. As to details the printed plan explains it all, and the new securities may be distributed by the 1st of November."—V. 67, p. 273

Centralia & Chester RR.—*Foreclosure proposed.*—The Farmers' Loan & Trust Co., the trustees under the Centralia & Chester mortgage, have been asked to institute foreclosure proceedings. V. 66, p. 573.

Central RR. of Vermont.—*Reorganization Plan.*—A meeting of the holders of certificates representing the Consolidated RR. of Vermont first mortgage 5s has been called for Oct. 26 at Chipman Hall, Tremont Temple, Boston, to ratify the modified plan referred to last week. Mr. Ezra H. Baker, Chairman of the committee, writes us as follows: "The former plan of reorganization (V. 65, p. 515) agreed upon by the Grand Trunk Railway Co., and accepted by the bondholders, will be carried out, with the modifications noted in the circular. The control of the new property will be in the hands of the Grand Trunk Railway Co. By the terms of the new mortgage, the first mortgage bondholders are to have three members of the board of directors, one of whom shall be a member of the executive committee. The change in the plan has been agreed to by the interests hitherto hostile to our plan of reorganization, and we are assured of their support."

The circular provides for the issue of the following:

Capital stock	$3,000,000
Of which for interest overdue Feb. 1, 1898, on $7,000,000 Consol RR. of Vt. 1st 5s, viz.: 8 per cent	560,000
To be held by Grand Trunk Railway Co	Control
First mortgage 4 per cent 21-year gold bonds, to be dated Aug. 1, 1898, or as near that date as possible. Interest to be guaranteed by the Grand Trunk Railway Co. by a traffic contract under which any deficit in earnings in any year will be provided for by the Grand Trunk Railway Co. up to 30 per cent of the gross business interchanged by the Grand Trunk Ry. Co. and the Central Vermont RR. Co. ("The gross business has averaged in the past from $1,200,000 to $1,500,000 yearly and doubtless will be no less in the future") The new mortgage is to cover all the property of the new company, including branches, equipment, lease of the New London Northern RR. Co and also other property not now covered by the first mortgage. Total authorized issue to be	$12,000,000
of which in partial exchange for $7,000,000 Consol. RR. of Vt. 1st 5s	7,000,000
To remain in the treasury, to be issued for improvements and additions only, under proper restrictions	1,000,000
To be used in acquiring branch roads and in settlement of preferred claims, reorganization expenses and other obligations; in the retiring of the equipment bonds and in settlement of the holders of the general mortgage 4 per cent bonds	4,000,000

Exchange of Securities.—Holders of the American Loan & Trust Co. certificates and of first mortgage Consolidated RR. of Vermont bonds not deposited are to receive par for their present bonds in the new first mortgage bonds and interest in cash at the rate of 4 per cent per annum from Feb. 1, 1898, to the date of the new bonds. (This interest has already been advanced on May 1 and August 1 to a majority of the certificate holders by the Grand Trunk Railway Co., and will not be paid a second time); they will also receive 8 per cent of the face of their bonds in the capital stock of the new company, representing interest overdue Feb. 1, 1898. The expenses of reorganization will not call for any assessment of the certificate holders.

Of the outstanding $7,000,000 first mortgage bonds the Baker committee has on deposit about $5,700,000 with the American Loan & Trust Co. Fixed charges under the old plan were reduced from $563 874 to $402,000. Under the new they amount to $440,000. The New London & Northern has also accepted the modified plan.

See also advertisement on another page.—V. 67, p. 689.

Cleveland Akron & Columbus RR.—*Judgment.*—A press despatch from Cleveland on Thursday said that judgments by default have been taken in the United States Circuit Court against the company for nearly $150,000. The judgments were taken on notes given for rolling stock and other material, and were as follows: North Central Wagon Co., $39,391 16; Union Rolling Stock Co. $54 909 90; Scottish Wagon Co., limited, $7,330 29; Bristol & South Wales Wagon Co., limited $54,9[illegible]9 90.—V. 65, p. 1170.

Denver Leadville & Gunnison Ry.—Union Pacific Ry.—Henry Budge, Charles A. Peabody, Jr., and Henry de Coppett, the committee for the Un. Pac. 4½% bonds of 1889 secured by pledge of Denver Leadville & Gunnison bonds, have issued a call for a meeting of the bondholders on Oct. 18 to ratify an agreement for the transfer of the property, if acquired at foreclosure, to the reorganization committee of the Union Pacific Denver & Gulf RR. The consideration for the transfer is that each certificate for a deposited Union Pacific 4½ per cent $1,000 bond shall receive (1) $650 in new 4 per cent first mortgage Gulf bonds, bearing interest from Feb. 1, 1899; (2) $200 in trust certificates for new first preferred Gulf stock; and (3) $150 in trust certificates for new second preferred Gulf stock. Scrip will be issued for fractional amounts. The Gulf committee also agrees to pay all the expenses of the Gunnison committee and of the foreclosure. The plan for the reorganization of the Union Pacific Denver & Gulf company is given below.—V. 67, p. 319, 635.

Detroit Mackinac & Marquette RR.—*Interest Payment.*—One per cent will be paid to the registered holders of the land grant bonds on Oct. 12, 1893, for the six months ending Sept. 30, 1898.—V. 66, p. 708.

Edison Electric Illuminating Co. of Brooklyn.—King's County Electric Light & Power.—*Sale of Stock Consummated.*—On Monday the sale of about 91 per cent of the capital stock of the Edison Company to the Kings County Company was effected in pursuance of the plan in CHRONICLE of September 3, page 482. The sale carries with it the control of the Citizens' and Municipal Electric-Lighting Companies and therefore brings under one control substantially all the electric light business in the Borough of Brooklyn. The Kings County Company controls the patents of Nikola Tesla for that borough. Anthony N. Brady, ex-Governor Flower and others are interested in the enterprise. As stated below the New York Gas & Electric Light, Heat & Power Co., with a capital of $25,000,000, was incorporated this week at Albany. The Kings County Electric Light & Power Co. has capital stock of only $2,500,000, and, though only a surmise, it is possible the new corporation may become the controlling power in the Brooklyn consolidation, a consolidation which, as shown on page 482, has a present bonded debt of about $11,150,000.—V. 67, p. 689, 482.

Flint Glass Bottle Companies.—*Consolidation.*—Over twenty companies were represented at a meeting at the Hotel Waldorf on Thursday to discuss plans for the consolidation of the leading flint glass bottle companies of the country. The formation of a New Jersey corporation, with a capital stock of several millions, is suggested. Among those active in the matter are J. H Parks, of Boston, who has effected a number of similar consolidations, and C. H. Beach, President of the American Flint Bottle Manufacturers' Association. Of thirty-four flint bottle manufacturing concerns in the country, twenty-six are reported to have given options.

Galveston La Porte & Houston Ry.—*Re-sold.*—This property was sold under foreclosure on Thursday to L. J. Smith, the only bidder, for $425,000.—V. 67, p. 529.

Hawaiian Commercial & Sugar Co.—*Change of Control*—A San Francisco syndicate of bankers and brokers has purchased control, and the Spreckels management has been displaced by a board consisting of Edward Pollitz, President, E. M. Walsh, Albert Meyer, R. G. Brown and Charles Sutro. The San Francisco "Chronicle" says: "The new directors own 67,310 shares, which cost them between $1,500,000 and $1,750,000. The price paid, it is stated, ranged from $16 to $35 a share, 30,000 shares having been purchased in the last three weeks at $35@ 27."—V. 67, p. 428.

Kansas City & Northern Connecting RR.—*Listed in Philadelphia.*—The $1,608,000 first mortgage 5s of 1887 ($3,000,000 authorized) have been listed on the Philadelphia Stock Exchange. The company has also outstanding second mortgage incomes, $1,306,000; "floating debt, none."—V. 67, p. 127.

Knickerbocker Ice Co. of Chicago.—*Terms of Preferred Stock.*—An official notice as to the increase in the capital stock noted last week gives the terms of the $3,000,000 preferred stock issue substantially as follows:

The preferred stock is convertible into common stock at the pleasure of the respective holders under such lawful regulations as the board of directors may prescribe, and will be entitled in each fiscal year to a fixed dividend of 6 per cent, payable only out of net earnings, before any dividend for the year is paid or set apart on common stock, such dividend to be cumulative, from year to year, so that any deficit occurring in any year shall be made up as soon as practicable. The preferred stock will not be entitled to dividends, nor to participate in net earnings applicable to dividends, beyond said fixed annual cumulative dividend of 6 per cent.

The shares are $100 each.—V. 67, p. 690.

Lake Erie & Western Ry.—*Purpose of New Bonds.*—The company applied to the New York Stock Exchange last week for authority to list $1,000,000 additional second mortgage bonds. President Calvin S. Brice says:

"The bonds are not a new issue, as is understood in some quarters, but part of the original issue of $3,625,000, of which the company has held $1,025,000 in the treasury for several years, where they have drawn interest. The $1,000,000 of bonds have now been sold in, part to provide air brakes and automatic couplers under the Inter-State Commerce law and to provide other equipment."

Dividend.—As to the report that the company proposed to reduce the dividend on its preferred stock, the President said:

"There has been no meeting of the directors at which any action on the dividend could have been taken. Any discussion of the subject has been entirely of an informal and private character. One thing is certain, the company will pay its full dividend if it earns it; if it does not earn it, it will not pay it."—V. 67, p. 121.

Litchfield Carrollton & Western.—*Sale Nov. 12.*—The foreclosure sale is set for Nov. 12 at Carlinville, Ill.—V. 67, p. 428.

Metropolitan Street Ry. of Kansas City.—*Trolley in place of Cable.*—A dispatch from Kansas City says the new owners of the property are preparing to have the present cable lines, aggregating 62½ miles of track, equipped with trolley. A Chicago dispatch confirms the report that P. D. Armour and Norman B. Ream have acquired an interest in the property, and states they have "exclusive control."—V, 67, p. 634.

Metropolitan Street Ry. of New York City.—*Electric Service Begun on Sixth Avenue.*—On Oct. 1 the company began operating electric cars over the Sixth Avenue line, between Fifty-ninth Street and Eighth Street.—V. 67, p. 690.

Minnesota Iron—Illinois Steel—Elgin Joliet & Eastern Ry.—Federal Steel.—*Notice to Stockholders.*—The Colonial Trust Co. of New York and the Old Colony Trust Co. of Boston, referring to their notice of Sept. 10, announce that over 90 per cent. of the stock of the Minnesota Iron Co., Illinois Steel Co. and Elgin Joliet & Eastern Railway Co. has been deposited pursuant to the plan for forming the Federal Steel Co., and that further deposits may be made to and including Monday, Oct. 10 (being the date on which the cash payments on deposited stock must also be made), after which date no further deposits will be accepted.—V. 67, p. 578, 689.

Nashville (Tenn.) Street Ry.—*Bonds Called.—Refunding.*—The $149,400 bonds of the McGavock & Mt. Vernon Horse RR. have been called for redemption, and will be paid at par at the First National Bank of Nashville, Tenn., on Oct. 31, interest ceasing that day. An equal amount of 5 per cent bonds of the Nashville Street Railway has been floated, raising the outstanding issue to $633,400.—V. 64, p. 135.

National Linseed Oil.—*Second Suit for Receiver.*—A second suit for a receiver, on the ground of mismanagement, was filed against the company in the United States Court at Chicago by John R. Evans as owner of $150,000 stock.

Time Limit Removed.—The New York Committee has removed the limit of time for depositing stock "to such date as may be fixed hereafter by the committee."

Company's Indebtedness.—Thomas L. Greene, of the Audit Company, is examining the company's books, but pending the completion of his investigation the following facts which transpired at the meeting of stockholders in Chicago on Sept. 28, as published in the daily papers, are of interest.

A trial balance of Aug. 1, 1898, was presented, showing:

Current assets.		*Current liabilities.*	
Cash	$97,699	Bills payable	$3,814,790
Stock (mostly pledged)	1,809,480	Accounts payable	673,407
Accounts receivable	2,369,383	Miscellaneous	189,146
Other	81,707		
Total	$4,258,269	Total	$4,677,343
		Balance, deficit	$319,074

The deficit of $319,074 here shown is said to be altogether misleading, "since questions put to the Treasurer brought out the fact that the accounts receivable amounting to $2,369,383 contained an improvement account and another account completely foreign to the item of bills receivable. These foot up upward of $1,100,000," and when deducted from assets leave apparent deficit of about $1,500,000.

Stockholders' Committee.—Regarding the action of the stockholders at the Chicago meeting, we give the following:

A committee from St. Louis, composed of Messrs Edwards, Lee and Lindley, representing 34,000 shares of stock held in Indianapolis, St. Louis and Dubuque, were present. They refused to join in the Central Trust reorganization agreement for the present, stating that they would, before committing themselves, ascertain exactly what was the condition of the company and the value of its property. J. H. Eskles, F. O. Swanuell and Ezra Lindley were appointed a committee to devise a plan for the rehabilitation of the company. It was proposed that the stockholders advance $10 a share, or $1,500,000, and take second mortgage bonds, but no conclusive action was taken.

Of the $1,500,000 bonds, $763,000 have been sold, and most of the remainder used as collateral.

The disposition seems to be to effect a change of officers, and, if possible, to place the company on its feet without resorting to a receivership.—V. 67, p. 634.

New England Loan & Trust.—*Death of President.*—The body of President Daniel O. Eshbaugh was found in the Hudson River last Saturday.—V. 67, p. 690.

New Orleans Traction—New Orleans City & Lake RR.—Crescent City RR.—*Reorganization and Consolidation Plan.* The New Orleans City & Lake RR. Co.—or a new company to be formed for that purpose—shall acquire the railway, cars, franchises, etc., of the Crescent City RR., clear of all underlying real estate mortgages, and shall also acquire title to the power house, so that the company shall own in fee all the lines of road, cars, car barns (except such as are unnecessary to the proper operation of the road), shops, franchises and power house now owned by the New Orleans City & Lake RR. Co., the Crescent City RR. Co. and the New Orleans Traction Co. Against this there will be outstanding:

SECURITIES TO BE ISSUED AND ASSUMED.

Power House 6s of 1897, issued by New Orleans Traction Co. and left undisturbed; annual interest charge $8,580, sinking fund $7,500	$143,000
New Orleans City RR. 6s of 1879 (underlying loan N. O. City & Lake) left undisturbed	399,300
New Orleans City & Lake consol. mortgage 5s of 1893, due Jan. 1, 1943, but subject to call at 110, left undisturbed	2,599,500
New Orleans City & Lake new general mortgage 45-year gold bonds, to bear 4 per cent interest for five years and 5 per cent thereafter, to be a first mortgage on the lines of railway of the present Crescent City RR. and a lien after the above consol. 5s of 1893 on the present lines of the New Orleans City & Lake RR. They will also be a lien ranking equally with the said consol. 5s on the equity in the power house. Total authorized issue	3,250,000

Of which in exchange for present $3,000,000 Crescent City RR. consol 5s	3,000,000
To be reserved for new property, as from time to time acquired (not in any event exceeding $100,000 at present)	250,000
5 *per cent cumulative preferred stock* to have a preference as to assets as well as for dividends, and the company to have no power to create a new lien without the assent of a majority of the preferred stock. Preferred stock to elect a majority of directors until dividends for five consecutive years have been paid on preferred stock. Total issue	2,500,000
Common stock	5,000,000

Exchange.—The basis of exchange is as follows:

Fixed charges after five years $320,013 yearly, or for nine months			$240,009

—V. 67, p. 690.

New York Gas & Electric Light, Heat & Power Co. of New York City.—*New Company.* This company, with an authorized capital stock of $25,000,000, has filed a certificate of incorporation at Albany. The directors, with one exception, are lawyers, and all apparently dummies. They are:

Henry J. Hemmens, Frank D. Allen, F. L. Allen, J. F. Yawger, Louis M. King, C. N. Flint and N. W. Smith of New York City.

The purpose of the organization is not made public. The capitalization as at present reported is not large enough to permit the company to absorb all the gas companies of Manhattan borough in fulfilment of the scheme long ago suggested, but an increase of the amount might easily be effected. On the other hand the company is more likely perhaps to be connected with the sale of the capital stock of the Edison Electric Illuminating Co. of Brooklyn to the Kings County Electric Light & Power Co.

New York & New Jersey Telephone.—*New Stock.*—The stockholders will vote Oct. 27th upon a proposition to increase the capital stock from $5,000,000 to $8,000,000, for extensions and improvements. Only about $,1000,000 will be issued in the near future.—V. 66, p. 469.

New York & Harlem RR.—New York Central & Hudson River RR.—*Refunding of Harlem Bonds.*—On Wednesday the stockholders of the New York Central voted almost unanimously in favor of the proposed new contract by which the $430,000 to be saved annually in consequence of the refunding of the Harlem RR. bonds maturing in 1900 was to be shared at the rate of $200,000 for the Harlem and $230,000 for the New York Central. At the meeting of the Harlem stockholders, however, Thomas Hitchcock, as expected, objected to the proposed arrangement, and although a majority of the capital stock was in favor of the agreement, the shareholders agreed to let the questions of law raised go to the courts for settlement.—V. 67, p. 690, 577, 591.

New York National Exchange Bank.—*New Officers.*—Yesterday at a meeting of the board of directors W. H. Albro, H. A. Blyth and John Guth resigned, and were succeeded by Hudson Hoagland, Vice-President National Broadway Bank; James M. Donald, Vice-President Hanover National Bank; Robert H. McCutcheon, Secretary United States Printing Co. D. B. Halstead resigned as President and James Rowland was elected his successor. Mr. Halstead has been an officer of the bank for forty-seven years.

New York & Queens County Ry.—*Default.*—Default occurred October first on the coupons then due of the $2,000,000 first mortgage 5s of 1896. The company has been carrying a large floating debt ($1,297,114 June 30, 1898), and it is claimed the long distance passengers are carried for five cents has made its large business unprofitable. The negotiations for the merger of the Brooklyn roads are understood to have been about concluded, and it is well within the possibilities that this road may be included in the general consolidation believed to be pending. In any case the default is the forerunner, it is said, of thorough reorganization.—V. 67, p. 29.

Northwestern Elevated Ry. of Chicago.—*Bonds.—Construction Resumed.*—The stockholders of the Columbia Construction Co. received circulars last week stating that they could subscribe for the bonds of the elevated road at 90 and accrued interest, during the ten days ending Oct. 8. Work was resumed on the structure on Sept. 29. Some of the bonds it is understood have been sold, while the contractors have quite generally agreed to take the company's notes, secured by its bonds as collateral, in payment for the work as it progresses. Early in the year President Louderback said that $6,290,611 had been expended and that $3,500,000 would be required to pay floating debt and to complete the road. The amount now estimated as necessary is somewhat larger, and it is thought the bond issue will probably be limited to $4,500,000 instead of $4,000,000.—V. 66, p. 189.

Philadelphia Reading & New England RR.—*Sold.*—At the foreclosure sale on Thursday the property was purchased for $3,807,000 by Thomas A. Thacher, representing the reorganization committee. The bidding was spirited. Robert A. Meier, of 74 South Broad Street, representing Philadelphia capitalists, bid as high as $3,806,500, and W. W. Kurtz, representing non-assenting bond holders, bid as high as $3,750,000. Reorganization will now be effected under the plan briefly outlined in the INVESTORS' SUPPLEMENT and fully described in the CHRONICLE, V. 66, page 574.—V. 67, p. 75.

Pittsburg Cincinnati Chicago & St. Louis Ry.—*Bonds Called.*—Jeffersonville Madison & Indianapolis RR. first mortgage bonds to a total of $225,000 have been drawn for the sinking fund, and are payable, at 110, at the Farmers' Loan & Trust Co., interest ceasing Nov. 4.—V. 66, p. 756, 762.

Quincy (Ill.) St. Ry.—*Mortgaged for $500,000.*—The company has filed a mortgage for $500,000 to the Portland Trust Co. as trustee. V. 67, p. 372.

Richmond Nicholasville Irvine & Beattyville RR.—*Sold.*—At the foreclosure sale on Thursday Col. Bennett H. Young of Louisville, representing, it is said, Ernest Fawke of Liverpool, England, and Magann & Frayer of Canada, purchased the property for $160,000, the upset price.—V. 67, p. 223.

Rockford (Ill.) Traction Co.—*Foreclosure.*—Foreclosure proceedings have been instituted by the Northern Trust Co. of Chicago under the mortgage for $200,000. This action is preparatory to a consolidation of the Traction Company with the Rockford City Ry. Co. V. 67, p. 321.

Royal Trust Co.—Commercial Loan & Trust Co.—*Absorbed.*—The Royal Trust Co. yesterday completed its arrangements for the purchase of the Commercial Company's business. The companies are capitalized at $500,000 each.

Rutgers Fire Insurance Co. of New York.—*Change of Control and Directors.*—The Jameson & Frelinghuysen interests having acquired control of a majority of the stock, the following new board (including nine new names) was elected:

David H McAlpin, David Mahany, Joseph Haight, Jr., Oscar Purdy, James Y. Watkins, Albert Crane, James O. Clark, Henry V. Wagoner, Edward R. Pelton George F. Secor, William H. Gibson, Edwin C. Jameson, Joseph S. Frelinghuysen, George W. Dibble, Charles M. Jameson Robert Kelly Prentice, Alexander Masterton, Hilary B. Chambers, George W. Quackenbos, William M Cole and Edgar M. Crawford.

The Jameson & Frelinghuysen interests also control the Insurance Company of the State of New York, the Broadway, and the Globe.

Sandusky Mansfield & Newark RR.—Baltimore & Ohio RR.—*Plan Endorsed.*—The Gardiner Protective Committee, representing the Sandusky Mansfield & Newark 7 per cent bonds, has approved and recommended the acceptance of the reorganization plan suggested by the Baltimore & Ohio Advisory Committee. The President and Secretary of the Sandusky Mansfield & Newark also recommend the stockholders of the road to come in under the plan.—V. 67, p. 688.

St. Louis Chicago & St. Paul Ry.—*Receiver.*—At Springfield, Ill., Oct 1, Judge Allen in the United States Circuit Court appointed William H Male of New York receiver of the road, on application of the Mercantile Trust Co. of New York, the mortgage trustee. The receivership is incidental to the foreclosure of the mortgage of 1897 for $1,250,000, interest on which went to default May 1. It is understood the property will be consolidated with the Chicago Peoria & St. Louis, which is controlled in the same interest.—V. 66, p. 135.

Seaboard & Roanoke RR.—*Old Officers Re-elected.*—At Richmond, on Sept. 29, Judge Simonton of the United States Court revoked the order of Oct. 2, 1897, restraining the voting of the company's pooled stock by Louis McLane and Leigh M. Watts, the pooling committee, except so far as the prior order related to about 1,500 shares of stock sold to the Raleigh & Gaston RR. This left the pooling committee free to vote the great bulk of the pooled stock in the interest of the Hoffman management for which the pool was created. Accordingly, at the annual election this week the Hoffman ticket was re elected. Thomas F. Ryan, it is stated, will continue in the Federal courts the fight begun two years ago to secure the election of a new management in his interest. (See V. 63, p. 921; V. 65, p. 685)—V. 67, p. 579.

Staten Island Rapid Transit Co.—*Notices to Holders of First Mortgage 6s.*—The Investment Company, of 310 Chestnut Street, Philadelphia, referring to the offer of Dick Bros. & Co. quoted last week, requests the deposit of first mortgage 6s of 1913 under an agreement which has been prepared for concerted action "to secure an order of court for the receiver to pay the defaulted interest and to preserve the integrity of the first mortgage as against floating debt or the interests of junior securities." The Investment Company is prepared to advance to the holders of bonds deposited with it under the terms of the agreement the interest due the 1st of October, 1898, and if the litigation should be sufficiently protracted the interest payable April 1, 1899. Bondholders in New York can deliver their bonds to Dick Bros. & Co., bankers, 30 Broad Street, New York, for transmission to Philadelphia.

A committee consisting of J. W. Davis, Chairman, 9 Broad Street; T. Denny, Jr., 62 Cedar Street, and F. J. Lisman, 30

Broad Street, also with a view to protecting the interests of all the bondholders, invites deposits of the bonds with the Guaranty Trust Co., corner Nassau and Cedar streets, New York.—V. 67, p. 691.

Syracuse Rapid Transit Co.—*Loan for Improvements.*—The stockholders have authorized a $500,000 second mortgage to provide for improvements. It has been proposed to borrow $200,000 with the new bonds as collateral.—V. 66, p. 385.

Texas & Pacific RR.—*Bonds Called.*—First mortgage bonds, Eastern division, dated May 15, 1875, to the aggregate amount of $438,000 (of the total $3,784,000 outstanding) have been designated by lot for payment, in accordance with the terms of the sinking fund, and will be paid at par and interest on or before March 1, 1899.—V. 67, p. 75.

Third Av. RR. Co. of New York.—*Official Statement.—New Stock.—Possible Consolidation.*—A statement appeared in some of the daily papers last week to the effect that the company was proposing to consolidate with its branch lines, and that for improvements and other purposes it was likely to increase its capital stock to over $50,000,000. In response to our inquiries, Secretary Alfred Lazarus explains the company's real intentions as follows:

"For the purpose of paying its floating debt incurred in the acquisition of the securities of other street railways, and for changing the motive power of the main line and these acquired lines, it is the policy of the board of directors to issue stock, from time to time, instead of issuing bonds. Two million dollars of stock now in the treasury and long since authorized to be issued is now being issued, and further issues will be made in all probability, from time to time, as additional moneys will be required. The amount required for improvements will not be more than $15,000,000, and the total amount of stock issued in any event will not exceed $35,000,000. A consolidation between the present Third Av. and some of its affiliated companies is being considered, and if carried out the additional stock will be that of the consolidated company."

Application was made this week to the New York Stock Exchange to list the $2,000,000 stock now being issued, making the total capital stock outstanding and listed $12,000,000.—V. 67, p. 691.

Tradesmen's National Bank of New York.—*Doors Closed.*—The doors of this institution were closed on Monday at the instance of the Clearing House Committee, which made a partial examination and reported that it found the capital impaired. The extent of the impairment is uncertain.

Union Depot of Spokane Falls, Wash.—*Foreclosure Sale Nov. 12.*—This property will be sold Nov. 12, under foreclosure of the first mortgage for $473,000, the interest on which has long been in default. The upset price is $250,000

Union Pacific Denver & Gulf.—The reorganization plan issued this week will be found on page 748 of to day's CHRONICLE.

United States Oil Co.—*New Stock.*—The company has issued 10,000 shares of new stock, increasing its total capital to 50,000 shares, of the par value of $25 per share. The new stock was sold to the directors and their friends at a price said to be from $18 to $20 per share. The proceeds are to be used to pay for new properties and to increase production.

Bonds Called.—Bonds to the number of thirty have been drawn, and will be redeemed at par on presentation at the American Loan & Trust Co., Boston.

United States Rubber.—*President Converse of Boston Rubber Co. becomes a Director.*—Hon. E. S. Converse President of the Boston Rubber Shoe Co., was elected a Director on Thursday, at which time it was officially announced that a controlling interest in his company had been acquired.

Dividend.—In view of the payments for the Boston Rubber Co., and for other reasons, the Directors, it is stated, have postponed action on the common stock dividend until January next. The business of the company, it is reported, is exceptionally good. The quarterly dividend of 2 per cent on the preferred stock has been declared, payable Oct. 31 of record Oct. 15, 1898.—V. 67, p. 691.

Union Switch & Signal—National Switch & Signal.—The stockholders of the Union Switch & Signal Co. of Pittsburg, one of the Westinghouse companies, will vote Dec. 13 on a proposition to authorize $500,000 5 per cent gold bonds, and to ratify the purchase of the entire capital stock of the National Switch & Signal Co. A portion of the bonds will be used for the purchase of the National Co., and the remainder for improvements, etc. The National works at Easton, employing some 500 men, it is understood, will be brought to Pittsburg. Both the Union and the National companies own valuable patents for the manufacture of the block signal systems, and have of late operated in harmony. The last annual report of the Union company was in the CHRONICLE of April 16, 1898, page 758.

Wilkesbarre Electric Light.—*Purchased.*—Edward C. Jones, Banker, of 1 Nassau Street, New York, and Abram Nesbitt and E. W. Mulligan, respectively President and Cashier of the Second National Bank of Wilkesbarre, and their associates, have purchased the Wilkesbarre Electric Light Co. of Wilkesbarre, Pa. These are the same parties who recently purchased and consolidated the gas interests of Wilkesbarre. The price paid is not stated, but it is understood to have been large. The capital stock is given as $100,000.

L. & N. RR. 5-20 COLLATERAL TRUST FOUR PER CENT GOLD BONDS.

April 1, 1898, the Louisville & Nashville Consolidated Mortgage Seven per cent Bonds, amounting to $7,070,000 00, matured. In order to provide for the payment of these bonds, for the cost of the Paducah & Memphis Division and the liquidation of the floating debt of the Company, there have been issued $12,500,000 00 Collateral Trust Five-twenty year Gold Bonds, secured by $14,000,000 00 of Unified Fifty-year Four per cent Gold Mortgage Bonds and $4,000,000 00 Paducah & Memphis Division Fifty-year Four per cent Gold First Mortgage Bonds as collateral.

These bonds have been sold at a satisfactory price and the proceeds have been applied to the payment of $7,001,000 00 Consolidated Mortgage Bonds (leaving still outstanding $69,000 00) and to reimburse the Company for its expenditures for the Paducah & Memphis Division, amounting to $3,623,319 09, and the balance of the proceeds is in cash in the treasury of the Company.

OUTSTANDING BONDED DEBT.

By reference to page 4 it will be seen that the Outstanding Bonded Debt, less bonds of the various issues held in the treasury,

On June 30, 1898, amounted to	$85,771,660 00
On June 30, 1897, it was	80,503,660 00
Showing an increase of	$5,268,000 00

This increase is accounted for as follows:

BONDS ISSUED—		
Unified Fifty-year Four per cent Gold First Mortgage Bonds	$7,445,000 00	
Paducah & Memphis Division Fifty-year Four per cent Gold First Mort. Bonds	4,330,000 00	
Louisville & Nashville RR. Co. 5-20 Collateral Trust Four per cent Gold Bonds	12,500,000 00	
Total issued	$24,275,000 00	
FROM WHICH DEDUCT—		
Bonds redeemed and canceled	7,406,000 00	
Increase in Bonded Debt	$16,869,000 00	
FROM WHICH DEDUCT—		
Bonds in the treasury and deposited with trust companies as collateral, being an increase over the previous year of	11,601,000 00	
Net Increase in *Outstanding* Bonded Debt		$5,268,000 00

INTEREST ACCOUNT.

By reference to General Results statement it will be seen that the Interest and Rent Account for 1896-97 was	$4,981,993 03
For 1897-98	4,972,5 2 58
A reduction of	$9,400 45

Heretofore Interest Account has been credited with rent from the Paducah & Memphis Division, amounting to $154,772 58. During the year 1897-98 this amount ($154,772 58) has been credited to Income from Rents. If Interest Account had been credited with this amount during the year just ended, Interest Account would show a reduction of $164,173 03.

INCOME AND PROFIT AND LOSS ACCOUNTS.

Income Account has been charged with the discount on bonds received for the Sinking Fund Payments and for Sinking Fund Payments for which no bonds were received, amounting to $162,007 50; also the annual pro rata discount on bonds sold, amounting to $26,375 03; and the loss on the other roads amounting to $175,100 27, leaving a balance to the credit of Income Account of $1,632,901 87, which has been transferred to the credit of Profit and Loss Account.

The Directors have re valued the assets of the Company, and have charged all losses, accounts and advances considered uncollectible, to the amount of $128,246 65, to Profit and Loss Account. The balance to the credit of Profit and Loss Account June 30, 1898, is $2,846,360 45.

RESERVE FUND.

There has been credited to this account and charged to Profit and Loss the following amounts appropriated out of this year's surplus:

For Couplers and Air-Brakes, to comply with the law passed by Congress for equipping the balace of the Company's rolling-stock	$500,000 00	
For Rolling-stock	500,000 00	
For reduction of grade	248,441 00	
		$1,248,441 00
There was still unexpended from amounts previously appropriated for Rolling-Stock		380,883 00
Making a total appropriation of		$1,629,324 00

The physical and financial condition of the Company is eminently satisfactory. It has upwards of $2,000,000 00 in bank, and is entirely free from floating debt.

The improvement of the physical condition of the Company's property, its rolling-stock, etc., which has been made during the past five years, will relieve the management from further extraordinary expenditures for improvement of the road.

The expenditures for the terminal facilities at Nashville, Tenn., will be represented by bonds secured by a lease of the terminal property jointly to the Nashville Chattanooga & St. Louis Railway and Louisville & Nashville Railroad Company.

It was the understanding with the employes of the Company, at the time that their salaries and wages were reduced, that the same should be restored when the business of the Company warranted it. The reductions were to the extent of twenty per cent on salaries in excess of $4,000 and ten per cent on all salaries and wages less than that amount. Partial restoration has been made as of July 1, 1898, to the extent of one-half of the respective reductions, and assurances given that the remainder will be restored on the 1st of January, 1899.

It may be proper to state that it is proposed to consider surplus hereafter earned over and above operating expenses and fixed charges for each year as a basis for dividends for such year, which dividends will be regulated by the amount so earned for that period, but it is not contemplated to use any of the accumulated surplus of the Company for the payment of dividends.

The Board has to record the death of one of its members. Mr. John D. Taggart died at Louisville, Kentucky, on June 5, 1898. He was elected a Director of the Company on October 1, 1884, and has been Chairman of the Finance Committee at Louisville since October, 1888. The stockholders have lost a watchful and prudent guardian of their interests, and his fellow-directors a judicious adviser and a warm friend.

By order of the Board of Directors.

ROADWAY.

There were 356,210 cross ties renewed, and 42,859 used in new side tracks, the average cost being 28½ cents; 269 sets of switch ties were used of which 48 were on new side tracks.

There were 6·15 miles of new side track constructed, and 72,665 cubic yards of ballast placed in the track.

The right of way has been secured and grading completed for a cut-off at Hollow Rock, which will make a more direct connection with the Memphis & Paducah Division, and reduce expenses.

Cumberland Mountain tunnel has been enlarged so as to admit of the passage of larger cars.

BRIDGES AND TRESTLES.

The four 50-foot pony truss spans over Overall's Creek and three over Wartrace Creek have been replaced by plate girders, and six of the old spans have been strengthened and re-erected over Little Sequatchie River on the Jasper Branch. The two 160-foot combination spans over Little Sequatchie River were changed to 120-foot spans and erected over Elk River on the Middle Tennessee & Alabama Railroad. The two 50-foot plate girders over Crow Creek have been completed.

Contracts have been let for replacing six combination spans over Harpeth River on the Northwestern Division, each about 96 feet long.

4,987 lineal feet of trestles have been filled.

BUILDINGS.

The old freight and passenger depots at Rome, Ga., have been torn down and new ones built, and the yard re-arranged. New depots at Gleason and Gardner and a waiting room at East Sparta have been erected.

Voting Trust.—The plan provides as additional protection to the new bonds that all classes of stock, except shares to qualify directors, are to be vested in these voting trustees: Grenville M. Dodge, Frederic P. Olcott, Harry Walters, Henry Budge and J. Kennedy Tod, and says:

The stock shall be held by the voting trustees for five years, and for such further period, if any, as shall elapse before the first preferred stock shall have received a 4 per cent cash dividend for three consecutive years, although the voting trustees may, in their discretion, deliver the stock at any earlier date. Until delivery of stock the voting trustees will issue certificates of beneficial interest. No additional mortgage shall be put upon the property or the amount of the first preferred stock authorized under this plan be increased, except with the consent in each instance of the holders of a majority of the whole amount of first preferred stock, given at a meeting of the stockholders called for that purpose. During the existance of the voting trust, the voting trustees will not vote on their said first preferred stock for the purposes indicated without the consent of holders of the like amount of that class of beneficial certificates.

The new company may reserve the right at any time to redeem its preferred stock at par, in cash, if allowed by law.

Exchange of Securities.—The basis of exchange is as follows, the old bonds to carry the overdue coupons:

b. From notice of Denver Leadville & Gunnison committees as above cited.

Cash Requirements.—A syndicate has been formed by Messrs. Hallgarten & Co. and J. Kennedy Tod & Co. which agrees to underwrite the stockholders' payments and to purchase $1,250,000 first mortgage bonds; $1,030,000 first pref. stock trust certificates); $800,000 second preferred stock (trust certificates) The cash contributions of stockholders and the amounts to be paid in by the syndicate will aggregate $4,512,998. In addition about $2,653,000 will be available from proceeds of sale of Julesburg branch and of Panhandle RR. (estimated), cash in the hands of the Receiver, Dec. 1, 1898, and in the hands of the trustee of the consolidated mortgage. The total, $7,165,998, is applicable as follows:

For taking up $4,788,000 Colorado Central RR. Co. 1st mortgage 7 per cent bonds, for new machine shops at Denver, air brakes, couplers, equipment and improvements during first fiscal year, additional terminal facilities at Denver, and other purposes of the new company, expenses of the reorganization, including commission to syndicate and franchise and stamp taxes, and for working capital.

Fixed Charges, Etc.—The charges, etc., appear as follows:

*In these operating expenses there were charged expenditures made for repairing the effects of the disastrous and unprecedented cloudbursts of July 24, 1898, the losses resulting from which the receiver estimates, exceeded $100,000, and without which the average net earnings should have been over $944,753

Right to Participate.—Holders of U. P. D & G. consols deposited who shall not have withdrawn their bonds by Oct. 23 will be bound by the terms of the plan. Those approving the plan should have their certificates stamped as assented. Consols not deposited may come in on or before Oct. 25. Certificates of deposit for Denver Texas & Gulf and Denver Texas & Fort Worth securities, and also securities of those companies not deposited, must be delivered to the Central Trust Co. on or before Oct. 25, 1898, in exchange for new certificates, in order to participate. Depositing stockholders must have their certificates of deposit stamped assented, and holders of stock not deposited must deposit the same, on or before Oct. 25, 1898, and must pay at the depositary in New York, or at its agency in Boston, two equal instalments of $5 each the first on or before Oct. 25, 1898, the second on or before Nov. 28, 1898. Failure to pay either instalment when and as payable will forfeit all rights of purchase.—V. 67, p. 691, 319.

Whitebreast Fuel—Iowa & Illinois Coal Co.—*Receiver.*—At Chicago, on Sept. 30, Judge Showalter of the United States Circuit Court appointed E. A. Potter receiver of both these companies. Mr. Potter is President of the American Trust & Savings Bank of Chicago.—V. 67, p. 691.

—The semi-annual dividend of the Cincinnati Sandusky & Cleveland Railroad Company of three per cent on the preferred stock will be paid Nov. 1, by J. P. Morgan & Co. Transfer books will close Oct. 20, and reopen Nov. 2

—The Empire State Idaho Mining & Developing Company has declared its monthly dividend of one per cent, payable Oct. 15. The net earnings of this company for the four and a-half months since its incorporation are reported to have been a little over $90,000, equivalent to nine per cent on its capital stock.

COMMERCIAL EPITOME.

FRIDAY NIGHT, Oct. 7, 1898.

The warm weather experienced early in the week had a tendency to interrupt business to some extent in seasonable goods. As a rule, however, trade conditions have undergone few important changes. The volume of merchandise moving has continued of fairly large proportions and values in the main have held to a steady to firm basis. High ocean freight rates have continued to have a tendency to hold the export business in breadstuffs in check. This was particularly noticeable during the first half of the week. A feature of the week has been the starting of the expected trade war between the American Sugar Refining Company and independent refiners. Advices received from the Northwest reported an Indian outbreak.

Lard on the spot has been in fairly active demand from refiners. Early in the week there was some pressure to sell, but the close was steadier, with nearly all of the loss recovered, closing at 5·10c. for prime Western and 4·80c. for prime City. Refined lard has had a fairly large sale. The close was steady at 5·40c. for refined for the Continent. Speculation in lard for future delivery has been moderately active. Early in the week prices declined under large receipts of swine, yellow fever reports from the South and aggressive selling by some operators. Subsequently, however, there developed a demand from shorts to cover contracts and most of the loss was recovered. The close was steady.

Pork has had a moderate sale at slightly lower prices, closing at $8 62½@8 87½ for mess. Cutmeats closed steady. Tallow has been unchanged at 3½c. Cotton seed oil has been in moderate demand and steady, closing at 22c. for prime yellow. Butter has been firm for desirable grades. Cheese has held steady. Fresh eggs have been steady.

Brazil grades of coffee have had only a limited distributing sale, and at the close prices were being shaded slightly. The market for invoices has been quiet, and during the latter part of the week the tone was easier owing to primal markets showing more of a disposition to sell coffee, closing at 6¼c. for Rio No. 7. Mild grades have been in increased supply and easier, closing at 8¾c. for good Cucuta. Speculation in the market for contracts has been quiet and prices have declined under liquidating sales by longs and the continued full movement of the crop. Following are final asking prices:

Raw sugars have been dull, as refiners have been indifferent buyers, and prices have weakened slightly, closing at 4 3-16c. for centrifugal, 96-deg. test, and 3 11-16c. for muscovado 89-deg. test. Refined sugar has been depressed as refiners have been cutting prices. The close was steady at 5c. for granulated. Rice has advanced on crop damage reports. Other groceries have been steady.

Kentucky tobacco has been in fair demand and steady. Sales 225 hhds. Seed leaf tobacco has been less active but steady. Sales for the week were 2,400 cases, including 500 cases, 1897 crop, flat, 13@21½c.; 200 cases, 1897 crop, Onondaga, 11@13c.; 100 cases, 1895–6 crops, New Eng., 30@40c., &c.

Straits tin has been in fairly active demand and prices have advanced in reponse to stronger foreign advices, closing at 16·60@16·70c. Ingot copper has had only a limited sale, but prices have held fairly steady at 12¼@12½c. for Lake. Lead has been quiet and prices have weakened to 3·90@3·92½c. for domestic. Spelter has been firm but quiet at 4·85c. for domestic. Pig iron has been in fair demand and steady at $9 75@$11 50 for domestic.

Refined petroleum has been advanced, closing at 7·10c. in bbls., 4·60c. in bulk and 7 85c. in cases; naphtha steady at 6·75c. Crude certificates have been firmer, closing at $1 11; credit balances have been advanced to $1 10. Spirits turpentine has been firmer, closing at 32½@33c. Rosins have been quiet but steady at $1·30 for common and good strained. Wool has been dull. Hops have been in fair demand and firm.

COTTON.

FRIDAY NIGHT, October 7, 1898.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 346,231 bales, against 318,605 bales last week and 300,265 bales the previous week, making the total receipts since the 1st of Sept., 1898, 1,044,015 bales, against 1,115,668 bales for the same period of 1897, showing a decrease since Sept. 1, 1898, of 71,653 bales.

Speculation in cotton for future delivery has been quiet, but there was a slight advance in prices early in the week. There was a general disinclination shown to sell the market short with prices on the present low basis. The appearance early in the week of a cold wave in the Northwest had a tendency to create more or less talk as to the possibilities of frosts in the cotton belt during the next ten days or fortnight, which would seriously injure the maturing crop. Until this period is past operators, who were otherwise bearish in their views, were disposed to hold aloof; in fact there has been a disposition shown by some shorts to reduce their lines and their buying helped to give a steadier to the situation, particularly as there were comparatively few sellers. Europe was reported as a free buyer of actual cotton early in the week, and this demand served to relieve the pressure of the large movement of the crop. Heavy rains were reported in the cotton belt east of the Mississippi River, and they, too, had a favorable effect upon values. Thursday, however, there developed a weaker tone during the closing hours of 'Change, and much of the improvement was lost. Recent buyers took advantage of the higher prices to realize profits, and there was a moderate amount of selling against purchases at lower prices of cotton at the South. Weather conditions were reported more favorable, and this also had a weakening influence upon values. To-day the market was easier during early 'Change, under limited selling by the Continent. Subsequently, however, this selling had subsided, the market turned steadier and most of the loss was recovered. The close shows prices 2 points lower for the day. Cotton on the spot advanced 1-16c. on Wednesday. To day the market was quiet and easy at 5 7-16c. for middling uplands.

The rates on and off middling, as established Sept. 15, 1898, by the Revision Committee, at which grades other than middling may be delivered on contract, are as follows.

WEATHER REPORTS BY TELEGRAPH.—Reports to us by telegraph from the South this evening indicate that rain has been quite general the past week, and that at some points the precipitation has been rather heavy. Picking is making good progress, on the whole, but has been interfered with at some points by the wet weather. The storm in Georgia the early part of the week is stated to have done much damage to cotton. The movement of cotton to market has been very free, but has been checked in some sections by the quarantines against yellow fever.

Galveston, Texas.—It has been dry all the week. Average thermometer 82, highest 87, lowest 74. Rainfall for the month of September six inches and seventy-eight hundredths.

Palestine, Texas.—We have had showers on three days of the past week, the precipitation being twenty-eight hundredths of an inch. The thermometer has averaged 83, the highest being 98 and the lowest 68. During the month of September the rainfall reached one inch and ninety-two hundredths.

Huntsville, Texas.—There has been heavy rain on one day of the week, the rainfall reaching four inches. The thermometer has averaged 83, ranging from 70 to 94. Rainfall for September seventy-seven hundredths of an inch.

Dallas, Texas.—It has rained on one day of the week, the precipitation reaching eighty-five hundredths of an inch. The thermometer has ranged from 64 to 97, averaging 81. During the month of September the rainfall was ninety hundredths of an inch.

San Antonio, Texas.—There has been no rain during the week. Minimum temperature 66. During the month of September the rainfall reached one inch and thirty-two hundredths.

Luling, Texas.—We have had rain on one day the past week, to the extent of fourteen hundredths of an inch. The thermometer has averaged 81, the highest being 95 and the lowest 66. Rainfall for the month of September two inches and fifteen hundredths.

Columbia, Texas.—There has been no rain the past week. The thermometer has averaged 80, ranging from 67 to 92. Rainfall for the month of September two inches and sixty-eight hundredths.

Cuero, Texas.—It has rained on two days of the week, to the extent of seventy hundredths of an inch. The thermometer has ranged from 64 to 93, averaging 79. September rainfall two inches and seventy-eight hundredths.

Brenham, Texas.—We have had no rain during the week. Average thermometer 83, highest 95 and lowest 70. During the month of September the rainfall reached one inch and sixty-four hundredths.

Corpus Christi, Texas.—We have had rain on one day during the week, the rainfall being ten hundredths of an inch. The thermometer has averaged 83, the highest being 94 and the lowest 72. During the month of September the rainfall reached two inches and thirty-five hundredths.

Weatherford, Texas.—We have had rain on two days during the week, to the extent of thirty-five hundredths of an inch. The thermometer has ranged from 65 to 95, averaging 80. Rainfall for the month of September one inch and thirty-seven hundredths.

New Orleans, Louisiana.—Rain has fallen on four days of the week to the extent of one inch and eighteen hundredths. Average thermometer 80. September rainfall thirteen inches and ninety hundredths.

Shreveport, Louisiana.—Rain has fallen on three days of the week to the extent of thirty hundredths of an inch. The thermometer has averaged 81, the highest being 93 and the lowest 69. September rainfall five inches and forty-two hundredths.

Columbus, Mississippi.—There has been rain on two days of the week, to the extent of ten hundredths of an inch. The thermometer has averaged 84, ranging from 60 to 100. September rainfall five inches and forty-eight hundredths.

Leland, Mississippi.—It has rained on three days during the week, the rainfall being one inch and eighty-two hundredths. The thermometer has ranged from 65 to 93, averaging 74 3. September rainfall five inches and seventy six hundredths.

Vicksburg, Mississippi.—Conditions are practically unchanged, but wet weather has retarded picking somewhat. The week's rainfall has been eighty-seven hundredths of an inch, on three three days. Average thermometer 86, highest 91 and lowest 70.

Little Rock, Arkansas.—We have had rain on five days of the week, the rainfall being two inches and twelve hundredths. The thermometer has averaged 76, the highest being 90 and the lowest 67. September rainfall ten inches and twenty-five hundredths.

Helena, Arkansas.—Wet weather interferes with picking and damages lint. The weather has been much warmer than last year. There has been rain on four days the past week, the rainfall being two inches and sixty-seven hundredths. The thermometer has averaged 73, ranging from 66 to 85. September rainfall four inches and fifty-nine hundredths.

Memphis, Tennessee.—Local quarantines continue to delay receipts. Picking has been interfered with to some extent by wet weather. There has been rain on three days of the week, the rainfall reaching two inches and seventy-two hundredths, and rain is now falling. The thermometer has ranged from 64·5 to 90, averaging 76 6. During the month of September the rainfall reached five inches and fifty-seven hundredths.

Nashville, Tennessee.—There has been rain the past week to the extent of ninety-five hundredths of an inch. Average thermometer 75, highest 86, lowest 63.

JUTE BUTTS, BAGGING, &c.—During the week under review the market for jute bagging has continued fairly active and the close tonight is at 6¼c. for 1¾ lbs. and 6⅝c. for 2 lbs., of standard grade. Car-load lots of standard brand are quoted at 6⅛c. for 1¾ lbs. and 6½c. for 2 lbs., f. o. b., at New York. Jute butts have been in good demand for parcels to arrive at ·90c. for paper quality and 1¾c. for mixing. From Messrs. Ira A. Kip & Co.'s circular we learn that the deliveries of jute butts and rejections at New York and Boston during September were 16,652, against 9,392 for the same month last year, and for the nine months the deliveries reached 355,759 bales against 298,782 bales in 1897. The aggregate stock in the hands of importers and speculators at New York and Boston on September 3, was *nil*, against 1,000 bales at the corresponding date on 1897, and the amount afloat for the United States reaches 20,100 bales against 55,111 bales last year.

SEA ISLAND COTTON MOVEMENT.—We have received this (Friday) evening by telegraph from the various ports the details of the Sea Island cotton movement for the week. BREADSTUFFS.

FRIDAY, October 7, 1898.

Only a very moderate volume of business has been transacted in the market for wheat flour. Despite the fact that the prices for the grain have advanced to a slightly higher basis, values for flour have been easier, as a few sellers, owing to the apathy shown by buyers, have shown a willingness to make some concessions to effect sales. At the close, however, the market showed a steadier tone at the lower figures ruling. Rye flour has been in light supply and firmly held. Buckwheat flour has been quiet but steady at unchanged prices. Corn meal has continued to meet with a fair sale at steady values.

Speculation in the market for wheat futures has been a limited scale only. During the first half of the week prices weakened slightly under quiet and easier foreign advices, and a continued large movement of the crop in the Northwest. The export business early in the week was only moderately active, the demand being held in check to some extent by the high ocean freights and the fact that buyers were holding back in the hope that the premiums on cash wheat would weaken somewhat. Thursday, however, there was a more active export demand, the sales here and at outports being reported as amounting close to 1,000,000 bushels despite the fact that ocean freight rates continued high; premiums for cash wheat, however, weakened slightly. The market for futures during the latter part of the week showed a hardening tendency, in response to stronger foreign advices, and a cold wave in the Northwest started buying by some shorts to cover contracts. To-day the market advanced slightly for the nearby deliveries on a demand from shorts to cover contracts, stimulated by a revival of the export demand. The distant deliveries held steady. The close showed prices unchanged to ⅛c. higher. The spot market was active and higher. The sales to-day for export here and at outports were 792,000 bushels.

Indian corn futures have been quiet, but there has been a fractional advance in prices. The improvement was most pronounced during the latter part of the week. Reports received from some sections of the corn belt stated that the crop was showing a poor yield, and this stimulated some buying for investment account. Foreign advices were firmer and they also had their influence in strengthening values. Business in the spot market was rather quiet early in the week, but at the close exporters were buying with some show of freedom. To day the market was dull but steady. The spot market was fairly active and firm. The sales to-day for export were 460,000 bushels.

Oats for future delivery have been neglected in the local market. At Chicago prices have advanced on a fairly brisk cash trade, both the home trade and exporters buying with some show of freedom. The advance in other grains during the latter part of the week also stimulated some buying for investment account. The spot market has been fairly active at gradually hardening prices. To-day the market for futures was steady. The spot market was firmer but quiet No sales were reported for export.

THE DRY GOODS TRADE.

NEW YORK, FRIDAY, P. M., Oct. 6, 1898.

Business during the week has been on a quieter scale than for a number of weeks past. The weather has been unseasonably warm and an adverse factor. Yellow fever has been more obstructive in the South, and the fall season in the primary market is drawing to a close. Nevertheless, when compared with the results of the first week in October last year, this week shows a considerable gain in the aggregate volume of sales, which is fair evidence that although distribution by jobbers and retailers may have been checked, it is still of more satisfactory extent than a year ago, and is likely to continue so during the balance of the year. The tone of the market here has not undergone any material change in either cotton or woolen goods. In both, sellers refrain from exercising any marked pressure to move stocks, but in both the market tends more or less in favor of buyers. Print cloths are quotably lower, and their situation is again the subject of consideration by the Fall River manufacturers, who are likely, it is said, to evolve a plan for improvement upon lines entirely different from any previous effort, although concerted curtailment is to be one of its features.

WOOLEN GOODS.—The general condition of the woolen goods market shows little change at the close of the week. It was disturbed early in the week by the failure of the Sawyer and the Plymouth Woolen Mills, concerns held in high standing; but as the cause was ascertained later to be in outside speculation the failure ceased to figure as a market influence. At the same time the persistent conservative action of buyers of men's-wear fabrics is causing much embarrassment to manufacturers and some who recently resumed work have announced their intention of shutting down again. In no direction has the spring business been satisfactory. Some lines are reported to have sold their season's production, but they are exceptional, and the prices realized by them comparatively low. The dress goods division is no better than the men's fabrics, and both fall and forward business is unsatisfactory in extent and in price. Overcoatings are quiet, without quotable change, and cloakings inactive. Flannels and blankets dull but steady.

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending October 3 were 1,750 packages, valued at $78,895 their destination being to the points specified in the tables below:

* From New England mill points direct.

The value of the New York exports for the year to date has been $8,811,437 in 1898 against $8,211,396 in 1897.

The demand for export in heavy-weight cotton sheetings and drills still continues slow and the mills are running out of orders The home demand does not make amends for this continuing quiet, and prices tend in favor of buyers. Light-weights are quiet and also in buyers' favor. Bleached cottons irregular, but quotations of leading makes unchanged; the demand has been for limited quantities only. Wide sheetings are dull and easy to buy. Cotton flannels quiet and cotton blankets in moderate demand at firm prices. Denims are more inquired after at previous prices. Other coarse, colored cottons quiet, with ready sellers. White goods in fair request for spring, and quilts well sold and firm. Fancy prints are in average request in a regular way, with special business doing in some lines at irregular prices. Indigo blues and mournings are steady, with moderate demand. Other staple lines quiet and easy. Staple ginghams steady. Fine dress styles for spring have sold well at firm prices. Print cloths have declined 1-16c. to 1 15-16c. for regulars, with small sales and a moderate business done in odds on the basis of 2 11-16c. for 38½-inch 64-square 5 15 goods.

FOREIGN DRY GOODS.—The demand for seasonable lines has been light and featureless. For spring there is but slow development, and business in dress goods, men's-wear woolens and worsteds and in cotton and silk fabrics is all backward. Linens are in fair demand.

MUNICIPAL BOND SALES IN SEPTEMBER.

Our usual monthly compilation of municipal bond sales shows that during the month of September but $6,145,665 bonds were marketed, which total does not include $1,734,530 of temporary loans reported. These figures present a decided decrease, whether we compare them with the $9,272,691 reported for September of last year or with the exceptionally large total ($25,029,784) for August of the present year.

This decrease is partly due to the fact that during September but few large issues were floated, though also to the smaller number of municipalities issuing bonds, there being of the latter but 145 (emitting 170 separate issues) in September, as against 166 (emitting 214 separate issues) for August. In September 1897 there were 179 municipalities and 230 separate issues.

An important event of the month—one which has attracted much attention among bond dealers and investors generally—was the decision in the suits growing out of the award of the $12,688,992 36 bonds of New York City to the Produce Exchange Trust Company of New York. For reasons explained last month, these bonds were not included in our total of sales for August, but now that all litigation has ceased we place them in the table of additional sales for that month, which, with a few other issues, brings the total up to $25,029,784—an amount which has been but once exceeded.

The principal sales of the month were as follows: Mobile, Ala., $750,000 4½ per cent 40-year water and sewer bonds, awarded to Sperry, Jones & Co., Baltimore, at 100·563; Buffalo, N. Y., $466,003 3½ per cent 5-year tax loan bonds, awarded to Farson, Leach & Co., at 101·773; Great Falls, Mont., $375,000 5 per cent water bonds, sold at auction at 103, and $343,000 4 per cent bonds for various purposes issued by Los Angeles, Cal., and sold to E. D. Shepard & Co., New York, at 105·25. These constitute all the sales of $250,000 or over.

In the following table we give the prices which were paid for September loans to the amount of $5,223,910 issued by 117 municipalities. The aggregate of sales for which no price has been reported is $921,755, and the total bond sales for the month $6,145,665. In the case of each loan reference is made to the page of the CHRONICLE where a full account of the sale is given.

Houston, Texas.—*Bond Litigation.*—W. J. Hayes & Sons, Cleveland, have entered a suit in the Federal Court, asking for a writ of mandamus to compel the city to complete its contract with the Cleveland firm and deliver to them the $100,000 bonds awarded last August. The city, claiming that W. J. Hayes & Sons had not complied with the terms of purchase, re-awarded the bonds to Rudolph Kleybolte & Co., Cincinnati, on September 13, 1898. It is stated that the case will come up for a hearing late in October. See CHRONICLE, September 17, 1898, and October 1, 1898.

Vermont.—*Legislature Convened.*—On October 5, 1898, the regular biennial session of the State Legislature was convened.

Bond Proposals and Negotiations this week have been as follows:

Alden (Village), N. Y.—*Bond Sale.*—On September 28, 1898, the $18,000 water-works bonds were awarded to Joseph E. Gavin, Buffalo, at 100·715 for a 3·50% bond. Following are the bids:

For 3·5 Bonds.	
Joseph E. Gavin, Buffalo	100·715
For 3·65% Bonds.	
R. B. Smith & Co., New York	100·625
Bertron & Storrs, New York	100·45
Street, Wykes & Co., New York	100·00
For 4% Bonds.	
Seymour Bros. & Co., N. Y.	104·49
For 4% Bonds.	
Jose, Parker & Co., Boston	103·791
Edw. C. Jones Co., New York	103·15
Daniel A. Moran & Co., N. Y.	103·02
Walter Stanton & Co., N. Y.	102·50
Isaac W. Sherrill, Po'keepsie	102·25
Lamprecht Bros. Co., Cleve	101·57
W. J. Hayes & Sons, Cleveland	100·40

Principal will mature $900 yearly from 1903 to 1922, inclusive. For description of bonds see CHRONICLE of September 24, 1898, p. 654.

Anacortes, Wash.—*Bond Ordinance Repealed.*—According to the Seattle "Post" the City Council of Anacortes has repealed an ordinance passed in 1893, which authorized the issuance of $85,000 of bonds at a "stiff" rate of interest. At the election the vote was overwhelmingly in favor of issuing the bonds, but the placing of them was not so easy, and the bonds were never sold. The action of the present Council was taken to prevent the possibility of the bonds ever being issued.

Annapolis, Md.—*Loan Authorized.*—The Finance Committee has been authorized by the City Council to negotiate a loan of $10,000 at 6% with the Farmers' National Bank, Annapolis, for purposes of street paving and other permanent improvements.

Ashtabula, Ohio—*Bond Offering.*—Proposals will be received until October 10, 1898, for $2,400 6% bonds.

Battle Creek, Mich.—*Bond Sale.*—According to local reports, this place recently sold $10,000 4% sewer bonds to N. W. Harris & Co., Chicago, at 102·68.

Cairo, Ill.—*Warrants Not Yet Sold.*—In reply to our inquiry, Mr. J. S. Rearden, City Comptroller, informs us that the coupon anticipation warrants of the 1900-1901 series yet remain unsold. Mr. Reardon says: "Our Financial Committee seem hard to please and may yet dispose of them to our local banks."

Cambridge, Ohio—*Bond Offering.*—Proposals will be received until 12 M. October 24, 1898, at the office of T. R. Deselm, City Clerk, for $24,480 4½% street-pavement assessment bonds. Securities will be in denomination of $2,448, dated October 1, 1898; interest will be payable annually. Principal will mature $2,448 yearly on October 1 from 1899 to 1908 inclusive. Bonds are issued pursuant to Section 2264, Revised Statutes of Ohio, and of Ordinance No. 208, passed April 18, 1898, and of Ordinance No. 225, passed September 5, 1898.

Chautauqua County (P. O. Sedan), Kansas—*Bonds Refunded.*—This county has refunded $140,000 railroad-aid bonds at 5%. These bonds were voted in 1887 to the D. M. & A. RR., a road intended to be built between Denver and Atlanta, but which never reached either place. See CHRONICLE, July 30, 1898.

Cherry Creek (N. Y.) Union Free School District No. 1—*Bond Sale.*—On October 3, 1898, $7,500 4% 20-year bonds of this district were sold to C. H. White & Co., New York, at 107·42. There were twelve other bids received, ranging from 102·81 up to the price paid. Interest on the securities will be payable semi-annually at the Hanover National Bank, New York City.

Clay, Washington and Webster Districts, Marshall County, W. Va.—*No Prospect of Bond Issue.*—Upon inquiry we learn that no action has been taken looking towards the issuance of the $50,000 5% railroad-aid bonds which were voted last April. County Clerk E. M. Lewis says: "It looks very much as though the whole affair had been a 'bluff' on the part of the railroad company."

Clinton, Mass.—*Bonds Voted.*—Local reports state that the issuance of $6,000 road bonds was recently voted.

Columbia, Mo.—*Bonds Defeated.*—At the election held on September 27, 1898, the proposition to issue $35,000 of sewer bonds was defeated.

Columbus, Ohio—*Bond Sale.*—The $175,000 4% water-works bonds which were authorized last June were recently taken by the Sinking Fund Commissioners. Securities are issued in denomination of $1,000; interest will be payable June 1 and December 1.

Bonds Authorized.—The Finance Committee has been authorized by the City Council, under Ordinance No. 14,253, passed September 26, 1898, to issue $4,500 4% coupon bonds for the improvement of State Street from Sandusky Street to Davis Avenue. Securities will be in denomination of $500, dated Sept. 1, 1898; interest will be payable March 1 and September 1 at the office of the City Treasurer. The Finance Committee has been authorized and empowered to arrange for the issuance and sale of said bonds.

Crystal Springs, Minn.—*Correction.*—In the CHRONICLE last week we reported a bond offering for the city of Crystal Springs, *Minn.* The State should have been *Miss.* and is correctly given below.

Crystal Springs (Town), Miss.—*Bond Offering.*—Proposals will be received until October 15, 1898, by W. C. Wilkinson, Chairman, for $14,000 6% water-works bonds. Interest will be payable annually on July 5, and the principal will mature 20 years from date of issue.

Dalton, Ga.—*Bond Election.*—At the election to be held in November the question of issuing $30,000 sewer and electric-light bonds will be submitted to a vote of the people.

Deer Park (N. Y.) Union Free School District No. 1—*Bond Offering.*—Proposals will be received until October 12, 1898, for $22,000 4% school bonds.

Dorranceton (Pa.) School District—*Bond Sale.*—On September 26, 1898, $5,500 5% coupon bonds were awarded as follows:

Bonds Nos. 1 to 7 inclusive to the Second National Bank at par.
Bonds Nos. 8 and 11 to Ellen S. Wallace at 100·50.
Bonds Nos. 9 and 10 to Susan Norris at 100·75.

Securities are in denomination of $500, dated September 28, 1898. Interest will be payable semi-annually and the principal will mature one bond yearly from 1899 to 1909 inclusive.

East Windsor, Mass.—*Loan Authorized.*—At a town meeting held October 4, 1898, the Selectmen were authorized to borrow $10,000 for the general expenses of the town.

Edwards County, Texas—*Bonds Approved.*—On October 3, 1898, the Attorney General approved an issue of $23,000 refunding court-house bonds of this county.

Elmira, N. Y.—*Bond Offering.*—Proposals will be received until 8 P. M. October 10, 1898, by Edgar Denton, Mayor, for $29,000 city funding debt bonds. Securities will be in denomination of $1,000, dated October 1, 1898; interest will be payable semi-annually. Principal will mature $1,000 yearly from 1899 to 1927, inclusive. Bonds are issued pursuant to Section 7 of Chapter 685 of the Laws of 1892 as amended by Chapter 466, Laws of 1893, and by Chapter 54 of the Laws of 1897; they are exempt from all taxation. Each bidder must bid the lowest rate of interest at which bonds will be taken at par value, and may also bid a rate of interest and premium on the bonds bid for.¶

Essex County, Va.—*Bond Election.*—At the election to be held on November 8, 1898, the question of issuing $40,000 in aid of the proposed Richmond & Tidewater Electric Railway Co. will be submitted to a vote of the people.

Glenville (Village), Ohio—*Bond Offering.*—Proposals will be received until 12 M. October 26, 1898, at the office of Ira C. Farley, Village Clerk, for $21,000 6% sewer bonds. Securities are in denomination of $500, dated October 1, 1898; interest will be payable semi-annually. Principal will mature $10,500 October 1, 1899, and $10,500 October 1, 1900. Bonds are issued pursuant to Section 2705 of Revised Statutes of Ohio, as amended January 19, 1892, and of an ordinance passed September 23, 1898, authorizing their issue.

Grafton (Town), W. Va.—*Bond Offering.*—Proposals will be received until 12 M. October 20, 1898, by O. G. Augir, Chairman of Finance Committee, for $10,000 5% electric-light bonds. Securities are in denomination of $100, dated

September 1, 1898. Interest will be payable annually, on September 1, at the Bank of Grafton. Principal will mature September 1, 1918, subject to call after Sept. 1, 1908. Bonds are issued pursuant to Chapter 141, Acts of 1872 and 1873, of the State Legislature, and to an ordinance passed by the Town Council and ratified by the voters thereof.

Greensboro, Greene County, Ga.—*Bond Sale.*—On October 3, 1898, the $22,000 6% water-works bonds were sold to W. H. Patterson & Co., Atlanta, at 105·73. Bids were also received from Farson, Leach & Co., Chicago, at 105·179, and from F. M. Stafford & Co., Chattanooga, at 106·01. Principal will mature $1,000 yearly on November 1 from 1908 to 1927, inclusive, and $2,000 on January 1, 1928. For description of bonds see CHRONICLE of August 27, 1898, p. 443.

Hancock (Town), Vt.—*Bonds Authorized.*—This town has authorized the issuance of $2,000 4% White River Valley Railroad-aid bonds. Interest will be payable semi-annually. Further details of the issue have not yet been determined.

Hartford (Conn.) Arsenal School District.—*Bond Offering.*—Proposals will be received until 2 P. M. October 13, 1898, for $20,000 4% 20-year coupon bonds.

Hastings, Neb.—*Bond Sale.*—According to local report, the City Council, at a special session held on September 28, 1898, sold the $245,000 4½% 10-20-year (optional) refunding bonds to Spitzer & Co., Toledo. These bonds were offered for sale September 12, 1898, but were not disposed of at that time. A description of them will be found in the CHRONICLE August 20, 1898.

Herman (Village), Neb.—*Bond Offering.*—Proposals are asked until to-day (October 8, 1898), for the $2,000 4½% water-works bonds a description of which was given in the CHRONICLE of July 16, 1898. Principal will mature 20 years from date of issue, subject to call after five years. Louis Wachter is the Village Clerk.

Holyoke, Mass.—*Loan Proposed.*—It is stated that a loan of $25,000 for sewers will be negotiated shortly.

Johnstown (City), N. Y.—*Bond Sale.*—On October 1, 1898, the $50,000 4% water bonds were awarded to Denison, Prior & Co., Cleveland, at 105·95. Following are the bids:

Kaukauna, Wis.—*Proposed Bond Issue.*—The city is about to issue $35,000 refunding bridge bonds. These securities become optional December 8, 1898; they are now carrying 6% interest. The Milwaukee "Journal" says; "Several offers have been received to take them as low as 4½% interest."

Knoxville (Borough), Pa.—*Bond Offering.*—We are advised that this borough desires to sell the issue of water-works bonds which were authorized on August 23, 1898, at private sale. They will bear 3% interest if sold within the State and 3½% if sold out of the State, and will be in denomination of $500. Principal will mature 30 years from date of issue, subject to call after 5 years. Mr. H. A. Ashton, Borough Clerk, says: "We desire to make private sale and would like to agree upon rate of interest and sell at face value."

Lake Odessa (Village), Mich.—*Bonds Not Sold.*—We are advised that the $9,600 4% water bonds which were to be sold on October 3, 1898, were not disposed of.

Laurium, Mich.—*Bond Sale.*—On October 4, 1898, the $15,000 5% 10-20-year (optional) water bonds were awarded to the First National Bank of Calumet at 106·25. For description of bonds see CHRONICLE last week, p. 704.

Long Branch (N. J.) School District—*Bond Sale.*—On October 1, 1898, the $45,000 5% 32-year high-school bonds were awarded to E. D. Shepard & Co., New York, at 117·18.

Lynn, Mass.—*Temporary Loan.*—The city recently negotiated a six-months' loan of $75,000 with Rogers, Newman & Tolman at 3% and $10 premium.

McComb City, Miss.—*Bond Sale.*—On September 21, 1898, the $35,000 6% water-works bonds were awarded to the McComb City Bank at 103. Principal will mature October 5, 1918, subject to call after October 5, 1903. For description of bondssee CHRONICLE of September 17, 1898, p. 602.

Madison County, (P. O. Richmond,) Ky.—*Bond Offering.*—In the CHRONICLE last week we stated that proposals would be received until October 4, 1898, for $112,000 refunding bonds. We are now advised by J. Tevis Cobb, County Attorney, that *no* bids were to be received until October 4, 1898, but after that date and until January 1, 1899, he will entertain propositions. Mr. Cobb says that on October 4, 1898, they had complied with all the statutory requirements looking to the refunding of these bonds. They will bear 4% interest, payable semi-annually, probably in Louisville. Principal will mature $12,000 January 1, 1909 and $5,000 yearly thereafter. Bonds are dated January 1, 1899. Mr. Cobb states that a committee will probably be appointed to negotiate and sell these bonds, with power to receive bids in any manner whatever looking to the best and most advantageous sale of the bonds.

Bond Election.—At the election to be held in November the question of issuing $70,000 of turnpike bonds will be submitted to a vote of the people.

Mahanoy City (Borough), Pa.—*Bonds Awarded.*—We are now advised that the $45,000 borough bonds which we reported as having been sold in the CHRONICLE of August 20, 1898, were awarded to W. J. Hayes & Sons, Cleveland, at 102.

Philadelphia, Pa.—*Loan Resolution.*—On October 6, 1898, the Select Council passed a resolution authorizing the Mayor to advertise and offer for sale such bonds as may be necessary to provide funds for public work already authorized and for which appropriations have been made from the $11,200,000 loan.

Plymouth, N. H.—*Bonds Proposed.*—At a special town meeting held September 29, 1898, the question of issuing $50,000 water-works bonds was laid on the table, to be taken up at a later meeting. These bonds, if authorized, will bear not more than 4% interest.

Pittsford (N. Y.) School District No. 13.—*Bond Sale.*—On September 22, 1898, $8,000 4% school bonds of this district were sold at public auction.

Ravenswood, W. Va.—*Bonds Voted.*—At an election held on September 28, 1898, the proposition to vote bonds for the Ohio Valley College carried almost unanimously. The bonds are voted with the condition that the Methodist Protestant and United Brethren conferences raise a sum equal to that voted by the town.

Richwood (Village), Ohio—*Bond Offering.*—Proposals will be received until 12 M. October 24, 1898, by S. D. Evans, Village Clerk, for the $6,000 6% coupon sidewalk bonds to which reference was made in the CHRONICLE of September 17, 1898. Securities will be in denomination of $1,000, dated September 20, 1898; interest will be payable semi annually. Principal will mature $1,000 yearly on September 20 from 1899 to 1904 inclusive. Bonds are issued pursuant to Section 2330b of Revised Statutes of Ohio, and of Village Ordinance No. 175, passed September 2, 898. Indebtedness, outside of this issue, $2,225 35. The Village Clerk informs us they have never defaulted in payment and have funds enough in the treasury to liquidate all their indebtedness.

Roane County (P. O. Kingston), Tenn.—*No Bonds at Present.*—It has been reported that the county had under consideration the advisability of submitting to a vote of the people the question of issuing bonds for the purpose of liquidating its indebtedness. We are advised that "the matter of issuing bonds is only a probability. Nothing definite has been done as yet."

Rossville (Town), Ind.—*Bond Offering.*—According to local reports the Town Board is offering for sale $300 bonds for the improvement of the public school grounds.

Salem, Ind.—*Bond Offering.*—Proposals will be received until 10 A. M. October 15, 1898, by the Town Treasurer, for $11,500 5% refunding bonds. Twenty-five bonds will be in denomination of $50, twenty-five in denomination of $100 and sixteen in denomination of $500 each. Interest will be payable semi-annually. John W. Spaulding is Town Clerk.

Sanger (Texas) School District No. 79.—*Bond Offering.* Proposals will be received and opened "at any and all times until bonds are sold" for $4,000 6% school house bonds. Interest will be payable at the office of the District Treasurer, and the principal will mature September 25, 1918, subject to call after September 25, 1903. P. J. Bowers is Secretary of the Board of Trustees.

Shamokin (Borough), Pa.—*Bond Offering.*—Proposals will be received until 7 P. M. October 12, 1898, for the $65,000 4% street-paving bonds which were voted August 23, 1898. Interest will be payable semi-annually at the office of the Borough Treasurer and the principal will mature yearly on October 15, as follows: $2,000 from 1900 to 1908 inclusive, $2,200 from 1909 to 1918 inclusive and $2,500 from 1919 to 1928 inclusive.

Sharpsburg, Pa.—*Bond Offering.*—Proposals are asked until October 11, 1898, for $60,000 4% street improvement bonds.

Shelby County, Ohio—*Bond Offering.*—Proposals will be received until 12 M. October 18, 1898, by the Commissioners of this county for $30,000 6% county-deficiency bonds. Securities will be in denomination of $500, dated October 1, 1898; interest will be payable January 1 and July 1 at the office of the County Treasurer. Principal will mature $,500 on January 1, 1900, and $1,500 each six months thereafter up to and including July 1, 1909. Securities are issued pursuant to a resolution of the County Commissioners passed September 22, 1898, and in accordance with the provisions of Section 2834a, Revised Statutes, as amended April 23, 1898 (O. L., Vol. 93, page 233). Each proposal must be accompanied by $200 in currency. J. S. Laughlin is the County Auditor.

REVIEW OF SEPTEMBER.

There were no important new developments during September, and the principal influence affecting the markets was the situation as to money rates. Considerable apprehension was felt at one time as to the immediate future of money, arising out of the flow of currency to the interior and the absorption of cash by the U. S. Treasury in connection with the payments for the new Government bonds. But these fears were seen by trained observers to be groundless, and the event has justified their confidence that there was no likelihood of any stringency or of any serious disturbance in affairs from that cause. At the end of the month all occasion for uneasiness had passed. The demand from the interior had so far abated that the return flow now exceeded the outflow. At the same time gold was coming in from Europe, and as the payments into the Treasury for the new bonds had been practically completed, while the expenses of the Government continued heavy, Treasury disbursements were once again in excess of the receipts.

The Secretary of the Treasury took various steps to prevent the development of stringency. On the 3d of the month he issued a circular announcing that he would redeem at any time during September the $14,004,560 of Pacific Railroad Bonds commonly known as currency 6s, and maturing January 1 1899, with interest up to and including December 31, less a rebate of one-half of one per cent. This offer, however, does not appear to have been availed of to any great extent—less than a million dollars altogether having been, it seems, presented for redemption. As a further measure of relief he announced that the interest due October 1 on the Government 4 per cents of 1907, and amounting to $5,596,000, would be prepaid without rebate. It was understood that prepayment was to begin on the 10th, but evidently only the coupon interest was paid at that time, amounting to a little over half a million dollars; checks for the registered portion, covering $4,910,284, were mailed on the 19th, with notice that they might be presented for immediate payment. The latter part of the month announcement also came that the interest due November 1, amounting to about 4½ million dollars, would be anticipated—the coupon interest after October 10, the registered interest after October 20.

None of these, it will be seen, were very radical measures, but at the same time the Treasury was steadily adding to the Government deposits in the national banks. The obstacle in the way of the latter process was the difficulty of procuring available supplies of the new issues of bonds. This difficulty, however, gradually disappeared as the month wore on, and important relief was given to the market in that way. As the Government monthly statements for the first of October have all been issued, it is possible to ascertain now what the net effect of the Treasury operations has been. It appears that the Government revenue receipts during the month were $39,778,070, and the Government disbursements (including about 3½ million dollars of interest anticipated) $54,223,921. Had, therefore, the bond issue not come in as a factor, Government operations would have added 14½ million dollars to the supplies in the market. But, turning to the Government cash holdings, we find a total October 1 of $384,439,927, against $367,783,979 September 1, an increase of $16,655,948. This covers both the holdings in the banks and in the Sub-Treasuries. The addition to the bank holdings of course did not operate to deplete available supplies, but rather the reverse. Hence it is important to note that these deposits in the banks were extended during the month in the sum of $14,920,245, the total rising from $65,968,467 September 1 to $80,888,712 October 1. The amount in the Sub-Treasuries increased only $1,735,703, and that, therefore, is the net amount which was taken out of the market. It remains to add that national bank circulation was increased during the month $8,178,335, the Government figures showing $235,356,950 outstanding October 1 and $227,178,615

September 7. Comparatively little of the new circulation was taken out at this point, however, as the Clearing House institutions reported $14,048,500 of notes issued September 3 and $15,498,400 October 1.

The New York City banks lost heavily in both reserve and surplus the early part of the month, when the interior demand was still urgent and the Government bond payments were taking money out of their vaults, while the gold engaged for importation in Europe had not yet begun to arrive in any large way. In the two weeks ending September 17 the banks' money holdings fell off from $203,088,500 to $182,257,300, and the surplus reserve, notwithstanding a decrease in deposits from $752,389,800 to $712,067,600 (reflecting the contraction in loans), dropped 10¾ million dollars, and touched the low figure of $4,240,400. The movement, however, reached its culmination in that week. The next two weeks there was a heavy gain in the money holdings, these rising from $182,257,300 to $190,859,200. At the same time there was a further contraction in loans, reducing the total to $635,572,800 (against $672,173,900 at the beginning of the month), and the deposits also further declined slightly, bringing them down to $702,128,200 (against $752,389,800 September 3). The effect of all this was that the surplus reserve at the end of the month was over fifteen million dollars again—$15,327,150.

It is a rather notable circumstance that rates for call money on the Stock Exchange at no time went above 6 per cent, not even when the surplus reserve of the Clearing House banks was lowest. Indeed, even the 6-per-cent rate was touched on only two days, namely on the 20th and the 26th. On the 20th some very few of the banks and trust companies also obtained the same rate over the counter on new business and marked standing loans up to 5 per cent. But from that time on the tendency was downward, the advance to 6 per cent on the Stock Exchange again on the 26th having been wholly exceptional and temporary. The latter part of the month there was a decline in all classes of loans, as will be seen from the following weekly record for the month.

Business revival continued to make satisfactory progress. Various incidents in the peace negotiations with Spain came up, but none of them were of a character to arrest or interfere with the revival. During the month the Spanish Cortes gave its approval to the terms of the peace protocol negotiated the previous month between the governments of the two countries. The American members of the Peace Commission sailed for Europe, and the sessions of the Commission were begun in Paris the latter part of the month. The nominating conventions of the two political parties for the coming fall elections attracted attention in view of the importance of securing a majority in Congress against silver. In this State the Democratic Convention ignored the Chicago platform and the silver issue entirely, and undertakes to conduct the canvass wholly on State issues. The growing grain crops reached maturity under conditions promising good, though not unusual, harvests. The price of wheat underwent some recovery, but a subsequent reaction caused the loss of this advance, so that cash wheat closed at 73½ cents on the 30th, against 73⅛ cents on August 31. In cotton a sharp decline occurred, bringing the price down to only 5 5-16 cents per pound for middling uplands, a low record; at the close there was a recovery to 5 7-16 cents.

The foreign exchange market was naturally influenced a great deal by the course of money rates here. The firmness of the money market led to the taking of considerable amounts of gold in Europe, and this induced the Bank of England to raise its minimum rate of discount from 2½ per cent to 3 on the 22d. Rates in the open market in London advanced to 2½@2⅝ per cent, from 1⅞ per cent. According to the Custom House returns, the imports of gold at this point for the four weeks ended last Saturday aggregated $11,738,242, but part of this was reported in transit for Cuba; the exports for the same four weeks (almost entirely to the West Indies) were $1,330,667. The course of exchange was almost continuously downward, though with a slight upward reaction at the close, as will be observed from the following table, which shows every change in the rates for actual business during the month.

The stock market was weak most of the month. At first fears with regard to money rates were the moving cause, then the failure of the St. Paul directors to increase the dividend on the common shares gave an unfavorable turn to the speculation, and finally the erratic movement of the industrial shares, particularly the violent break in Sugar Refining, American Tobacco and United States Rubber, completely unsettled the course of values.

NEW YORK STOCK EXCHANGE.

MONTHLY AND YEARLY RECORD.

The following tables furnish a complete record of the New York Stock Exchange transactions for the past month and fo the year 1898. They need no extended introduction, as they are self-explanatory. The tables embrace every security (excepting only State bonds) dealt in on the Exchange. We give bonds first, using the classification adopted in th official list. As to prices the form is our own, and we think it will be found to contain just the facts desired by our reader and to present them in the most convenient way for study and reference. All quotations in the column headed "*Price about January 3, 1898,*" were made on that date except those in italics, which are the nearest in January, 1898.

BOSTON STOCK EXCHANGE.

MONTHLY AND YEARLY RECORD.

The following tables furnish a record of Boston Stock Exchange transactions in railroad securities for the past month and for the year 1898. Also a record of transactions in mining stocks for the past month and for the year 1898. The railroad securities which are active on the New York Stock Exchange are omitted from this list. We give the securities in alphabetical order under the three general headings, Railroad Bonds, Railroad Stocks and Mining Stocks.

☞ *In comparing New York and Boston prices, it should be noted that bond prices in New York are flat prices—that is, the price includes the accrued interest, while in Boston accrued interest must be paid in addition to price. It should also be remembered that New York stock prices are per cent while those in Boston are dollars per share.*

§ Less than 100 shares † Assessment paid.

GENERAL QUOTATIONS

—OF—

BONDS AND STOCKS.

1. In the following twenty-seven pages of tables quotations are given for all securities listed on any Stock Exchange in the United States; also for all leading unlisted and inactive securities for which we have been able to obtain reliable prices.

2. Quotations from all Stock Exchanges are as near as possible for the *last day of September*. Of course the coupon, if there be one, maturing between the date of quotation and the date of this publication, is not deducted from the price.

3. Bond prices marked thus (§) indicate that the purchaser must pay accrued interest *in addition to the price given*. The method of quoting on the New York Stock Exchange is to quote the prices flat (that is to include the accrued interest in the price), and hence in the tables below no mark is now affixed where this method of quoting is followed.

4. Stock prices marked thus (†) are per share. All others are per cent except bank stock prices.

5. It should be borne in mind in the use of these tables that the quotations for many inactive and unlisted securities are merely nominal, but in all cases the figures are obtained from sources which are considered reliable.

6. The following abbreviations are often used, viz.; "M.," for mortgage; "g.," for gold; "g'd.," for guaranteed; "end.," for endorsed; "cons.," for consolidated; "conv.," for convertible; "s. f.," for sinking fund; "l. g.," for land grant.

☞**Notice Change.**—We no longer affix a mark to prices quoted flat, but only to those which require payment of accrued interest in addition to the price. Designating mark in this instance is (§).

MUNICIPAL BONDS.

Prices marked (*) are flat prices—that is, the purchaser does not pay accrued interest in addition. *In all other cases accrued interest must be added to the price.*

The figures in the column "*to net*" indicate the basis on which the securities sell or the interest rate which the securities if held to maturity, will net to the purchaser at the present market price.

It should be borne in mind that municipal bonds are not subject to such decided fluctuations in value as are securities which form a basis for speculation.

QUOTATIONS OF BANK AND TRUST COMPANY STOCKS.

Prices are per share, not per cent, with the exception of New York City and Brooklyn bank stocks. Prices marked thus (*) are last sales.

The dagger (†) prefixed to a price indicates that the figures show the book value.

The double dagger (‡) prefixed to the capital stock indicates that only part is paid in.

The section mark (§) prefixed to surplus indicates that undivided profits are included.
